Readers On Edge

PEORIA, Ill., Aug. 9.—(P)—A trick picture of a mammoth grasshopper which the Peoria Star printed yeaterday wasn't nearly as comical as staff members thought it would be.

The newspaper is begging forgiveness of its readers today and says it "regrets frivolous toying with the truth."

The trick picture was made by Vaide Johnson Jr., and amateur photographer. It made the grasshopper appear to be as large as a hayrack on which it was riding.

The humorous exption for the picture said the hopper later was seen heading southward "in 100-yard leaps."

Shortly after the paper appeared on the streets, the Star's telephones were awamped with calls. Peorians wanted to know more details of the giant hopper. One reader indignantly said it should have been shot.

A mother called the picture "terrible" and told her newspaper that it had shocked her children. The Michigan senator suggest-ed to Secretary of Defense Louis Johnson that about \$580,000,000 be furnished in cash by Congress—with the balance in contract authorizations (to be met by later appropriations) which would not be charged against the current budget.

By DON WHITEHEAD
WASHINGTON, Aug. 9.—(P)—
The multi-billion dollar foreign recovery bill sped toward 'inal congressional action today after a stormy passage through the Senate.

Lawmakers expected a Senate-House committee to reach quick agreement on the somewhat different versions the two branches have passed. The Senate approved its bill late yesterday by a top-heavy 63 to 7 vote.

Senators ended almost two weeks of wrangling to shake the measure free from the confusion which had blocked action more than \$20,000,000,000 in money bills in addition to other legislation marked "must" by the administration.

When the final showdown came, only six Republicans and one Democrat voted against the \$5.797.724,000 measure.

The lone Democrat was Johnston of South Carolina. The Republican opponents were Capehart and Jenner of Indiana, Kem of Missouri, Langer of North Dakota, Malone of Nevada, and Williams of Delaware.

Despite all the sound and fury of debate, the Senate bill does not differ greatly from the House-approved measure. The Senate reduced the money totals about 10 per cent and added some amendments—none of which is expected to cause much trouble. almost all the money cost of the first year.

But Johnson, appearing before a joint meeting of the Senate foreign relations and armed services committee, argued that the full amount—\$1,430,000.00—is needed to safeguard the security of the United States.

What Might Eventuate
Said Johnson:

"Should western Europe be doverrun by a hostile power and should its vast industrial and manpower potentials be added to those of such an aggressor, the United States would stand isotated in a dangerously insecure period.
