

Rod-Gun Club Prepares For Sportsmen's Picnic, Plans To Sponsor Boy Scout Troop

The Roseburg Rod and Gun club, at its regular meeting Tues-

**If it's Wood—
a McCulloch will cut it!**

McCulloch chain saws are in the news. You can't beat them for high-speed logging, cutting cordwood, land clearing, and other timber work. The reason for the McCulloch's great popularity is simply this: the power's there... but the weight isn't! You don't need to take our word for it. Come in and see for yourself.

Try One Yourself
Within the next few days, stop by our store for a real demonstration of wood cutting. Or give us a call and we'll try to arrange a show for you at your place. There's no obligation. We want you to see what a McCulloch can do.

Father-Son Signal Links Railway To An Airline

DENVER, Colo.—(AP)—Passengers on the United Airlines flight from Denver to Cheyenne have noticed a train far below them winking its big headlight in the night. Passengers on the 8:15 p. m. Colorado and Southern between the same two towns have on more than one occasion spotted the huge airliner flying parallel to the track, systematically blinking the lights on its wings. This has been going on for three years now.

The engineer of the train and the pilot of the plane are father and son. The blink-blink of the lights is 64-year-old Clarence Chapman's way of saying "How're you, boy?" to his airborne son, 31-year-old Capt. LeRoy Chapman.

Occasionally the senior Chapman fancies-up his nocturnal hello by lighting a red railroad flare and holding it out the window of his cab. "I'm right proud of my boy," Clarence says. "And I just like him to know the man's still up and around on the job."

Marshall Plan Use In Europe Will Be Studied

SPOKANE, Aug. 10.—(AP)—What's Europe doing with the Marshall plan dollars? A special mission for the Economic Cooperation Administration to find out the answer will take Eric A. Johnston through 15 European countries next month.

The president of the Motion Picture association said here yesterday he will leave Sept. 17 with Allan B. Kline, president of the American Farm Bureau federation, and Robert Hickley, radio executive, also members of the ECA advisory board.

Johnston will attend a Sept. 19 meeting of UNESCO in Paris as state department adviser.

Research Projects Get Health Institute Grants

WASHINGTON, Aug. 10.—(AP)—The National Institutes of Health awarded 217 grants, totaling \$2,056,426, Tuesday for continuation of medical and allied research projects at 94 institutions.

The projects include studies of deafness and speech defects, peptic ulcers, the common cold, and the relation of the endocrine glands to aging.

The grants include: Alaska: Department of Health, Seward sanatorium, Seward, Lawrence H. Lowell, \$7,760.

Oregon: Oregon State college, Corvallis, Vernon H. Cheldelin, \$4,420.

Washington: Washington State college, Pullman, Charles H. Drake, \$2,077.

Cops-Advised Boy Flies Kite, Halts Electricity

DAVENTRY, England, Aug. 10.—(AP)—Peter Connerty, 14, took the policemen's advice and flew a kite. It fell across 11,000-volt power lines and caused a breakdown of all B. B. C.'s overseas broadcast from Daventry transmitter.

Blocked out all movie houses in the district.

Blocked electricity supplies to 40 villages.

Police Constables Jack Fenton and Norman Woods, who started the kite-flying craze to keep the kids from playing in the streets, now are compiling a list of "don'ts" for kite fliers. Main advice is don't fly them near power lines.

SNEEZES GO ON AND ON

HELSINKI, Finland.—(AP)—Finland is not to be sneezed at when it comes to sneezing. A man named Pelkonen, of Tampere, Finland, has been sneezing for half of his 40 years—not without interruption, to be sure. For two or three days, maybe a week, he is normal. Then it starts, and he sneezes 1,500-2,000 times a day. The sneezing is accompanied by a bad headache and some fever.

Dr. Eric Nyberg, of a Helsinki hospital, explained the Pelkonen a metal-worker, appears to enjoy generally good health, but the sneezing recurs without fail—and Pelkonen returns to hospital. There he is put to bed and given showing of colored motion pictures made by Mr. and Mrs. Gene Kent during their recent vacation in the Wallowa mountains. Mr. Kent is secretary of the Rod and Gun club.

Summers Tells Of His Slaying Elderly Couple

SAN FRANCISCO, Aug. 10.—Accused of the murder of two persons near Tacoma, Wash., 33-year-old John E. Summers Tuesday blurted out a story of accidental shooting.

The ex-convict, arrested by FBI agents last night, was given a formal appearance before U.S. commissioner Francis St. J. Fox. Summers is charged with the rifle slaying of Howard Easley, 62, and his wife, Elizabeth, 67.

Handcuffed and guarded by two deputy U.S. Marshals, Summers appeared before commissioner Fox, who asked him if he had any statement.

Summers didn't have to reply. But he recounted eagerly a story he had earlier told newsmen. He had visited the Easleys on their ranch, near where he lived, he said. Mrs. Easley berated him for not picking up a suit at a cleaning place. Her husband joined in the argument, which grew heated. Easley reached for a rifle, the accused man said, and Summers and the rancher struggled. The weapon discharged, Mrs. Easley was killed, and her husband resumed the fight for possession of the gun. Again a bullet was fired, Summers declared. This one killed Easley.

Commissioner Fox said quietly that bail would not be permitted. Joseph F. Kares, representing the government, reminded the commissioner that \$25,000 bail had been fixed on the murder warrant in Washington.

Summers appeared pleased. "Twenty-five thousand," he repeated, "why I can furnish that." He added that "a woman up there, who liked me very much, will furnish it."

But he was sent back to jail, to await a hearing Friday on removal to Washington. Three officers of the sheriff's detail in Tacoma left today for San Francisco to return the prisoner.

Harry M. Kimball, FBI agent in charge here, said Summers surrendered without resistance last night at a rooming house where he had been living and doing odd jobs.

en "asthma" treatment. The affliction, the doctor said, is an allergy, a form of nasal catarrh, caused by the veins in the nose.

ITCH (Scabies) is highly contagious and will continue for life if not stopped. Its sole cause is the itch-mite, which is immune to ordinary treatment. EXSORA kills the mite—almost instantly. Only three days' EXSORA treatment is required. Mail orders given prompt attention. Fred Meyer Drug, Roseburg.

By SHERMAN PLIMPTON

Not long ago a fancy handwriting was as much of a social accomplishment as ordering from a French menu. Then typewriters appeared and fancy penmanship with its curlicue birds and flowers faded. About the only place where penmanship was valued was in skywriting. Daring aviators, with their planes trailing smoke, looped and rolled across the sky as they wrote the names of cure-alls, soft drinks and tooth powder. But now a new machine controls the smoke from the ground and the letters come out in square blocks. It's called skytyping. Looks like the only thing we can ever count on is change.

MR. C. R. BARTLETT, 835 Winchester, wins a free lubrication for his car this week. Bring your car in anytime, Mr. Bartlett.

A New Orleans railroad engineer piloted switch engines about 200,000 miles in 40 years... but never got more than 15 miles from home. Who says travel's broadening? Broadening or not, traveling in the new DeSoto can be fun. Try it once and you'll be sure it's the car you've been waiting for. You can see the latest models now on display at KORRUM MOTORS, 114 N. Rose St. Drop in and talk it over with Deb or phone 408.
