Oregon Native Says Strike Experience Caused Him To Join Communist Party

NEW YORK, Aug. 11.—(AP)—New York state's communist party chairman, Robert G. Thompson, testified Tuesday his experiences in a series of unsuccessful strikes on the West Coast in the early 1930s led him to join the Communist party in 1933.

He said he became interested in the party because of its activity in support of strikes.

Applications For Yets' Insurance Soon To Be Ready

Application blanks for the \$2,800,000 National Service Life Insurance special dividend to be paid to some 16,000,000 present and former policyholders will be available for veterans Aug. 29, the Veterans Administration has announced.

Government Printing office currently is running off 70,000,000 of the forms, advance samples of which have been released. The forms will be available in every postoffice, VA office and at veterans' service organizations beginning Aug. 29, which is the earliest date the Government Printing office can complete distribution of the huge order.

In making samples of the application card available, the VA said the cards may not be reproduced for distribution, since they become part of the permanent records of the VA, and must be on a special paper and of a correct size to fit computing and recording machines. Any off-size standard or off-size paper will only serve to delay processing, as the cards will have to be thrown out of the production line.

As official forms will not be available, any dividend applications received prior to Aug. 29, the VA emphasized, will be discarded and no attempt made to process them.

What Veteran Needs To Do

All the veteran needs to do is to obtain the application, which is a three-fold card containing all the instructions necessary to get the dividend, then fill it out and mail it to the VA. In event the veteran does not know the number of his insurance policy, the application can readily be identified by service number, rank and the exact name used during service with the armed forces.

It will be unnecessary for veterans to write about their insurance number or about the status of their dividend application, the VA said. The VA will mail each veteran a part of the application form to show that it has been received and is being processed. Writing will only delay payment because it will be necessary to withdraw the application from the application line. Mailing of checks will start sometime in January of next year.

With completion of the micro-filing of premium record cards, the dividend payment project now enters into the phase of setting up master files and records so that the applications may be

Unemployment in Roseburg Area Shows Increase

Increase in unemployment in the Roseburg area, over the figure a year ago, was noted in the monthly report of the Oregon State Employment service issued today.

Throughout the state the count of unemployed workers declined by 1,500 during July, but the total of 40,900 on Aug. 1 was nearly 75 percent above the 23,400 reported a year ago.

Resumption of cannery operations and farm harvests accounted for most of the employment pick-up during July. The number out of work in the Salem area dropped from 3,700 to 2,150. Astoria went from 1,500 to 900 and the Portland office reported a decline of a thousand with 20,500 still without jobs.

Eastern Oregon offices — The Dalles, La Grande and Bend — had the biggest increases in unemployment, but the fir timber area also reported more idle workers than for many summers past. Roseburg, Coos Bay, Lebanon and Eugene with 6,780 not working had an increase of 1,200 during July.

The number of unemployed veterans remained at 9,800, about 2,700 more than a year ago.

Women accounted for slightly more than a fourth of the total as compared with 30 percent last year.

Unfilled non-farm job openings listed by 26 local offices also dropped last month to 987 as compared with 1,072 at the end of June and 2,315 a year ago. Only 6,431 new industrial and trade opportunities were received during July against 10,633 last year, the employment service said.

The employment service placed 22,726 workers on farm jobs last month and 4,908 in other lines.
