Cook Poultry For A Cool Kitchen

By GAYNOR MADDOX

NEA Staff Writer

Chicken cuts cooking time to a minimum. Often it can be cooked during the cooler hours of the day. And it is plentiful now.

Here are the three weight classes on the market now: 1) Broilers, approximately 8 to 12 weeks old, weighing no more than 2 1/2 pounds dressed. 2) Fryers, 14 to 20 weeks old, weighing between 2 1/2 and 3 1/2 pounds dressed. 3) Hens.

Light Birds: Use of the light birds enables you to cut kitchen time to a minimum, because they cook quickly. To broil a 2-pound chicken (dressed weight), only 35 to 45 minutes are required. And if you're frying a 3-pound chicken (dressed weight) in shallow fat, the thickest pieces usually need from 20 to 25 minutes to cook, done to the bone, if fried entirely on top of the range.

If you're frying a 2 1/2-pound chicken (dressed weight) in deep fat (starting at 350 degrees F., and dropping to 300 degrees to 325 degrees F.), you'll need from 10 to 15 minutes for a quarter of the chicken to cook done to the bone.

Some cooks prefer taking out the pieces when they are very lightly browned, draining them on absorbent paper, and finishing in a moderate oven (325 degrees F.). Only 20 to 30 minutes more are required.

A stewing hen needs long, slow cooking in water or steam to make it tender. This takes 3 to 4 hours for a 5-pound fowl. Here's the bird to cook in the cooler part of the morning. Once the job is done, you have a delicious ready-to-use food to fit quickly into cold or hot dishes.

But observe this hot-weather caution. Poultry is a perishable food. If you don't serve it promptly after cooking, chill it and hold it at refrigerator temperature until time to serve. It's a good idea to let the stewing hen cool in its own juice after cooking, as this results in juicy meat with good flavor. But let the cooling take place in the coldest spot possible. Warm chicken broth spoils easily.

Remember the need for coolness, too, when you're handling poultry leftovers. Put them in the refrigerator as soon as possible. Take them out only when you're ready to serve them.
