

TWINS—AT FIFTEEN—Mrs. Patricia Baker, age 15, struggles her twin daughters born prematurely in a Cleveland, O., hospital. The young mother and her husband, Archie Baker, 16, named one of the girls Linda, but were temporarily at a loss for another name. The babes weighed 5 pounds, 14 ounces, and 4 pounds, 14 ounces, respectively, and everyone is doing well.

Comedy Line Going On Al Shean's Tombstone

NEW YORK, Aug. 16.—(AP)—The trade-mark line—"absolutely, Mr. Gallagher? positively, Mr. Shean"—that Al Shean helped make famous in life will be inscribed on his tombstone. Lawrence Shean, son of the 81-year-old actor, disclosed Monday

that the famed trouper had directed this epitaph to be placed on the stone. "Born May 12, 1868, I could have lived longer, but now it's too late. Absolutely, Mr. Gallagher? Positively, Mr. Shean," Shean, who died Friday, was buried Monday after services at Riverside Memorial chapel.

Voice Of America Hurts Reds; More Money Favored

WASHINGTON, Aug. 16.—(AP)—The House appropriations committee today recommended more money for the "Voice of America" after hearing that the program is hurting the Russians and hurting them badly. For the "Voice of America," the state department's foreign broadcast activity, the committee recommended \$11,400,000. This supplements money previously given for the current fiscal year, ending next June 30. The extra allotment, the committee said, is for construction and improvement of international radio broadcasting stations, including facilities to overcome Soviet "jamming" of U. S. broadcasts to Russia. During its hearings on the bill, the committee said, Lt. Gen. Albert C. Wedemeyer, director of psychological warfare for the army, testified: "A condition has been recently created by the Russians with reference to jamming that will require accelerated and expanded activity on our part. We have received numerous reports from good sources that would indicate that we are hurting them and hurting them badly."

Greyhound Line Strikers Reject Latest Offer

SEATTLE, Aug. 16.—(AP)—The nine-week-old strike against North Coast Greyhound lines continued today as union headquarters announced an overwhelming rejection of the company's latest offer. Striking employees rejected the offer, submitted last week, by a vote of 349 to 19, the announcement said. Balloting was conducted by AFL Motor Coach Employers' union, local 1384, in Bellingham, Seattle, Auburn, Chas. and Portland. Major concession in the company offer was a higher rate for most terminal workers, a union spokesman said. The deadline on payment of drivers still continues, he said. The company wants to pay drivers by the mile, the union insists on continuing payment by the hour.

OUT OUR WAY By J. R. Williams

U. S. Taxpayer, Awaiting Cut At Home, Unmoved By Economy In Arms Aid

By BRUCE BLOSSAT
The European recovery program now can go forward for another year without the fetters its opponents tried to clamp on it. The administration leadership managed to kill all proposals designed to hobble the Economic Cooperation administration. Foremost among those plans was that of Senator McClellan of Arkansas. He wanted to earmark about \$2,000,000,000 of the \$3,628,000,000 in the Senate's ECA appropriation bill to be used exclusively for the purchase and dumping abroad of American farm surpluses. The Senate also struck down

from a Congress that can't bring itself to economize anywhere else. It doesn't ring true, Congress just took the easy way out, knowing that it won't hear directly from any European voters. Until the lawmakers show enough spunk to apply the economy knife on some program closer to home, no sensible American voter is likely to give them credit for thinking about the taxpayer's pocketbook. The job they did on ECA was a grandstand play. Doctor Third In His Family To Die Of Polio. SAN ANTONIO, Tex., Aug. 16.—(AP)—Dr. Hurd Hargis Jr., 37, died of polio Monday, the third member of his family killed by infantile paralysis in a month. His sister, Mrs. Grace Wier, and a nephew, Briscoe, 3, died earlier. NEW YORK, Aug. 16.—(AP)—Mrs. Cornelia Vanderbilt Jr., wife of the journalist and lecturer, was taken to a hospital Monday for observation as a possible polio case, a family spokesman said today. The spokesman called it a "precautionary measure." It is estimated that 100,000 species of plants would virtually disappear if there were no bees. Ethiopia's royal family claims to have descended from King Solomon and the Queen of Sheba.

Two Alternatives Seen In Portland Punchboard Battle

PORTLAND, Aug. 17.—(AP)—Portland's punchboard battle may go either to the courts or to the people. Opponents of Mayor Dorothy Lee's edict that boards yield prizes for skill and not on chance said they were laying plans. City license stamps previously affixed to punchboards expired Monday midnight—except about 10 which had been placed on legal boards. Most punchboards fail to meet the city's legality test. A group known as Oregon Sales Stimulators company sponsored a meeting Monday night at which one proposal was made to start a recall against the mayor. S. A. Sedlock, vending machine company head and spokesman for the group, said recall was not the way to solve the problem. "We want to abide by the law but we think the courts should decide what the law is," Sedlock said. He was critical of Mayor Lee, saying that "we were running these same boards all the time she was commissioner and never let out a peep. Now that she is mayor she acts like a king and takes a domineering and conquering attitude." He said the plan now is to ask for a court ruling on what is a legal punchboard, or to draft an initiative designed to remove punchboards from the constitutional ban on lotteries.
