

LOS ANGELES, Aug. 17.—(AP)—District Attorney William A. Simpson Tuesday angrily demanded a full investigation of "the foul smelling two-year old mass of corruption and concealment" as disclosed by records of conversations in the home of gambler Mickey Cohen.

"When the grand jury reconvenes next month I'm going to demand that it institute searching inquiry to learn why this matter has been 'aged in the wood' more than two years through two grand juries and not placed in the hands of the agency (district attorney's office) required to prosecute criminal conspiracy where found," said Simpson in a statement.

Meantime, the New York Journal-American reported that Cohen suddenly fled from here to New York by plane after he learned of the disclosures. Cohen's home here would only say that the gambler is "out of town."

Cohen is at liberty on \$100,000 bail after being indicted by the county grand jury on criminal conspiracy charges. He was indicted after a number of his henchmen were released by police, without being booked, in the beating of a radio store proprietor.

The gambler has been ordered to appear in court here Oct. 3. Cohen's Wires Tapped

Simpson said he is asking Police Chief William A. Worton for a complete story of the original transcript which reportedly is a record of Cohen's calls to Cleveland, New York City, Miami,

Boston, Chicago, San Francisco and Fresno in connection with underworld activities.

Worton said he learned just a week ago that the transcript of many conversations between Cohen and his henchmen two years ago, made possible by underground wires to Cohen's home, were in existence. He said he immediately called in vice squad Lieut. Rudy Wellpot, one of the central figures in the current police department scandal, for in-

formation on the transcript.

One example of entries in the transcript contained the following attributed to Cohen's henchman, Mike Howard, and dated Nov. 26, 1947:

"Mike said the reason the Los Angeles police department takes things on the side is because they don't make enough to live on. He says if you don't offer them a gift, they don't take it—they grab it and tear your arm off with it." The Los Angeles Times says

"the material throws a piercing light on the national as well as the local activities of Cohen, generally conceded to be the local kingpin of the underworld."

The material has been requested for study by the governor's commission on organized crime, the newspaper said.

Charge Accounts Latest Idea For Theater Goers

HOLLYWOOD, Aug. 17.—(AP)—You may soon be able to step up to the boxoffice at the Bijou and say: "Charge it, please."

Yes, to crown such lures as free dishes, bank nights and popcorn, movie men have dreamed

up new bait: boxoffice charge accounts.

The see-it-now-and-pay-later plan was hatched by the King brothers, a trio of Hollywood producers. They're offering it—free—as a tonic for ailing film profits.

The Kings, who arrived at their present eminence via an interest in slot machine movies, intend to offer their plan to the Theater Owners of America. The organization begins its annual four-day

convention here Sept. 12.

The plan operates this way:

A patron's credit rating will be established just as it is when he opens a department store charge account. At the boxoffice, the cashier will note the card number, name and number of guests. The customer will be billed at the end of the month.

Are credit happy Americans ready to rise to the lure?

Yes, says Frank King, spokesman for the brothers.

"Most families live on budgets,"

Frank says, "and the family bankroll is usually pretty thin the last few days before payday. If they knew they could pay later, a lot more people would go to the movies."

Although whale oil candles went out of fashion 100 years ago, skilled American glassworkers are today making glass candleholders by hand by virtually the same methods they used a century ago.
