

### Compromise On Price Props Split Two Farm Groups

WASHINGTON, Aug. 24.—(AP)—A compromise bill to set up flexible farm price supports got a half-hearted boost from the National Grange Tuesday. But ran into opposition from the National Farmers Union.

J. T. Sanders, legislative counsel of the grange, told the Senate agriculture committee the committee compromise has "many weaknesses" but is preferable to:

1. The house-passed bill, by Rep. Gore (D-Tenn.), to continue for another year rigid, high-level wartime price supports.
2. The flexible support program provided for effective in 1950, under an act passed by the republican congress last year and named for Senator Aiken (R-Vt.).

The compromise between the Gore and Aiken plans is now under study by the committee. It was worked out by a subcommittee headed by Senator Anderson (D-N.M.), former secretary of agriculture.

It would keep support prices at about the same level as the Gore bill in 1950 but would allow them to drop in later years if crop surpluses piled up.

Angus McDonald, speaking for the Farmers Union, said he hoped that neither the Anderson nor the Aiken plan would go into effect.

He testified the union opposes sliding scales of support prices and believes all commodities should be accorded equal treatment and supported at 100 percent of parity.

The committee decided to call in bureau officials for a full explanation after Senator Lucas (D-Ill.) said the committee should find out how much it would cost taxpayers by increasing the parity level.

### Restoration Of Vets Hospital Fund Committee's Aim

WASHINGTON, Aug. 24.—(AP)—The House veterans committee voted Tuesday to force President Truman to restore a 16,000-bed hospital construction.

Mr. Truman last January cancelled \$237,000,000 of contract authority voted by Congress for the additional hospital facilities. That involved cancellation of plans for 24 new hospitals and reductions of the size of 14 others.

The current independence of offices appropriation bill contains funds for the project, but leaves it up to the discretion of the president on how they should be spent.

The bill sponsored by Rep. Rankin (D-Miss) and approved by the veterans committee Tuesday removes the discretionary authority and makes the expenditure mandatory.

At the same time, the committee voted a \$6,000,000 pay increase for the medical staff of the veterans administration.

The VA medical director would be increased from \$12,000 to \$16,000 a year, with other personnel raised on a graduated scale.

Albuquerque, N. M., founded in 1706, was named for the viceroy of New Spain, the Duke of Albuquerque, but the first "A" of the name fell into disuse.

May had a little car  
That was old and rusty, too  
She took it home  
To her Ford man  
And now it looks like new!

### Driving School Will End With Present Class

The Roseburg Junior Chamber of Commerce-sponsored driving school will be discontinued for the season after the present class is graduated, according to Chairman Douglas Tudor.

The Jaycees will launch another driving class next summer, Tudor indicated.

Seven students are enrolled at the present time and they meet each Monday and Friday evening at Adair's parking lot.

Tudor said approximately 45 persons will have received in-

### Drug Fails To Cure Poker Habit; New Shots Asked

LONG BEACH, Calif., Aug. 23.—(AP)—Take it from Sula Bell Stimson, gambling grandmother of Gardena, glutamic acid is no substitute for poker.

Mrs. Stimson, 49, has been undergoing medical treatment under court order to curb her craving for cards. She had undergone a personality change from a normal housewife to a gambling addict.

Two months ago the treatment by the time the last class is finished.

was pronounced 40 percent effective by Dr. Marcus Crahan, county jail physician, and the woman was released to her family. Yesterday she was in court again on the same old charge—passing worthless checks to finance her gambling in nearby Gardena, where poker is legal.

Superior Judge Fred Miller continued the case for a week while he talks it over with Dr. Crahan. It was Crahan who originally suggested glutamic acid might restore the housewife's

normal personality.

The gray-haired woman asked the court to "restore the shots" and added that it is due to her own neglect that they hadn't been continued after her release on probation.

Glutamic acid, a protein brain food, was given to her by Dr. Crahan "to restore her sense of responsibility." It tends to make up for deficiencies in the cranial system and has been used with some success in cases similar to Mrs. Stimson's.

### Former Employees Plan Plywood Plant Take-Over

OLYMPIA, Wash., Aug. 24.—(AP)—Nine former employees have incorporated a new firm with which they hope to take over the Tacoma plant of the Oregon-Washington Plywood Co., Gari-bald, Ore.

Elvie Erb said the plant had closed last July with the announcement that it would not be re-opened. He said the group held a meeting at Tacoma last night in an attempt to interest other former employees and other persons in the venture. They hope to buy out the plant which employed

200 persons when it closed, he said.

The new employee firm, called North Pacific Plywood, Inc., was capitalized at \$400,000 in articles of incorporation filed with the secretary of state.

### Boys Toss Dye Into Pool Of Luxurious Hotel

HOUSTON, Aug. 24.—(AP)—Police today were looking for several boys who heaved chunks of orange-yellow dye over a fence into the swimming pool of the

luxurious Shamrock hotel here Monday night.

The dye—developed to discolor water so that airmen forced down at sea might be more easily spotted by aircraft—colorfully tinted 100,000 gallons in the pool. The water was drained away and replaced.

The last swimmer had left the pool a few moments before the boys dove up in a black coupe and let fly.

In the 19th Century ice from the United States was shipped to China and India.
