New 1950 Studebaker passenger cars went on display in Roseburg today. The Keel Motor Co. is exhibiting two models, one at the fairgrounds and the other at the company's display rooms at Jackson and Court streets. New models contain many improvements, says Vernon Keel, local agent.

Compression in both engines—Champion and Commander—has been raised from 6.5 to 7.0, which steps up power and helps gasoline economy without making it necessary to use premium

gasolines. Horsepower of the Champion is rated at 85 and the Commander at 102, brake test. Instrument panels are located four inches farther forward providing more space in the front compartment. Tire sizes have been increased, and extra low pressure types with wide base rims adopted.

Frontal appearance and fender treatment are particularly interesting. The front end embodies an airplane fuselage-type hood, flanked by air-foil front fenders, and set off by a chrome "spinner." In addition to providing an ornamental touch, the "spinner" augments four frontal openings which direct air to the engine for maximum cooling.

Wallace Beery's Heir Well Provided For

LOS ANGELES, Aug. 26.—(P)—Carol Ann Beery, 18-year-old adopted daughter of the late Wallace Beery, will have \$500 a month pocket money.

Superior court yesterday decreed that the girl—who will receive a third of the actor's \$2,000,000 estate when she becomes 21—be allowed to withdraw a total of \$1200 a month from her guardianship fund. The actor's former wife, Mrs. Mary Areta Foyt, will administer use of \$700.

But Judge Newcomb Condee directed the rest be paid directly to Carol Ann for her own personal use, saying: "She will have to handle a great deal of money in the years to come and it's time she began to learn."

That means that business is better and will continue improv-

ing for a while, John K. Langum, economist and vice-president of the Federal Reserve bank of Chicago, said here.

He added that it even could be the start of a full recovery.

"My own guess is that it's very likely temporary. I think we're going down some more. The bottom may be reached next year, but it will be no more than a recession—no major decline," he said.
