Loan Available To Farmers For Construction

Government loans to help farmers construct or repair houses and other farm buildings are authorized under the Housing Act signed by the President on July 15.

If appropriations match authorizations in the act, about 13,000 farmers can be aided the first year, and a total of 135,000 during the 5-year period.

Loans for housing or other farm buildings—primarily for remodeling rather than new construction—are expected to average about \$2,200.

Financial assistance under the housing program will be administered by the Farmers Home Administration, and other existing agricultural agencies will handle other phases of the program.

Riot Bans Concert By Paul Robeson, Singer-Commie

NEW YORK, Aug. 30.—(AP)—The Civil Rights congress said today President Truman may be asked to start an investigation of the Peekskill, N. Y., riot that broke up a scheduled concert by Negro singer Paul Robeson.

At least eight persons were injured, two seriously, when war veterans, protesting the Robeson recital, clashed Saturday night with several thousand concertgoers.

Proceeds of the recital were to go to the Harlem branch of the Civil Rights congress. Tomorrow night's protest rally, to be held in Harlem, will be sponsored by the congress, the American Labor party and a group of individuals.

Lawrence said a delegation also would be named at the rally to call on Governor Thomas E. Dewey. The group, he said, will demand a public investigation of the "failure of state police to act" in time to prevent the fist-swinging melee.

Robeson, frequently identified with left-wing activities, was intercepted by friends before he reached the concert grounds. He claimed the disorder was part of a "national terror" and an attack on the Negro people.

The main military items made by ironmakers during the Revolutionary War were cannon and cannon balls, cast from molten iron at the blast furnaces.

"THIS LITTLE PIC..."—Duroc, displayed by young Ervin Stritzke of Winchester, is a lot of sow. "Five or six hundred pounds, I never weighed 'er," remarked the owner to the photographer, at the county fair Saturday.—(Picture by Paul Jenkins.)

Cats Don't Deserve All Credit; Men Putting On Dog So Dogs Put On Men

By ED CREAM (For Hal Boyle) NEW YORK, Aug. 30.—(AP)—Some day, I do not guarantee when this reporter is going to learn to keep his big 'yap shut.

A few days ago, I committed a piece for the papers to the effect that dogs are not what they used to be. I said they were somewhat on the sissy side nowadays, that they weren't getting in the headlines much, that the cats seemed to be taking over.

Also, they write letters. Nice letters. Suggesting in a friendly sort of way that when I wrote my piece I was probably drunk, under other, or in the pay of the international association of dog-catchers.

Some newspapers also reacted. The Utica, N. Y., Observer-Dispatch squandered half a page of perfectly good newsprint, with pictures, to demonstrate that sand was running out of my ears.

Well, horrors of the thought may be, I could be wrong. A couple of the more constructive letters lead toward that conclusion.

There is, for instance, the case of Jetty, reported by Dick Johnson of Tampa, Fla. Jetty is a Texan. (Why a man from Florida should be boosting a dog from Texas puzzles me, too.)

Anyway, Jetty, a black mongrel, is one leap beyond a seeing eye dog. She's a hearing ear dog. She telephone-listens for Mrs. J. D. Ingram of Dallas, who is hard of hearing.

When Mrs. Ingram's phone rings, Jetty cocks her head to the right. When it rings a second time, Jetty cocks her head to the left. The third time, Jetty decides Mrs. Ingram hasn't heard it and starts barking like crazy.

Mrs. Ingram can hear Jetty barking and she can hear on the phone. What she can't hear is the telephone bell. Jetty knows that. How? The man from Tampa doesn't say.

Then there is Pat, a collie. Pat came to live with Mr. and Mrs. Richard Douthitt of Darlington, Pa., as a pup. Fine pup, too. His favorite job was waking Douthitt each morning and he sulked if his master got up unassisted.

Well, one day Pat was missing. No one knew why. No domestic trouble. Accounts all in order. Just another case for the bureau of missing dogs.

Seven years later a dog turned up in the Douthitt neighborhood, all pooped out. Dog tired, in fact. "Why, he looks like Pat," the Douthitts said.

Remembers Old Trick Experimentally, they took him home. He ran all around the place, sniffing, as if he weren't quite sure, he belonged there. The Douthitts weren't sure, either, but...

"The next morning," Mrs. D. writes, "I said to him, 'Pat, go upstairs and get Dick up.'"

"He went charging up the stairs, barking his head off. 'He jumped right into the middle of the bed, in his excitement. 'We have never doubted for a minute after that that he is our pup, Pat.'"

All right, I'm convinced. Dogs are still wonderful. Nice doggie. Have a lamb chop. Have a piece of thigh.

But if you have a dog which plays Rachmaninoff's Prelude in C sharp minor, while, doing me the favor, will you? Don't let me hear about him.

Marshall Plan Is Working Well In West Europe

PULLMAN, Wash., Aug. 30.—(AP)—The Marshall plan is working so well in western Europe it is no longer necessary for it to give supplemental food air there.

Dr. S. C. Michelfelder, executive secretary of the Lutheran World federation, said in a speech Friday night that the situation was not as bright east of the Iron Curtain.

He told 2,000 delegates to the annual Lutheran league convention that countries within the Russian sphere in influence have just about the same food situation as existed all over the continent in 1945 when the war ended.

He said the church is continuing its aid program in eastern Europe, with the approval of the countries involved.

"They want our dollars," he said. "Just the night before I left Geneva, we were invited to spend \$250,000 a year in Hungary. We didn't have it to spend but at least we were invited to do so."

Dr. Michelfelder, whose headquarters are in Switzerland, said he felt the financial problem was a bigger one than the political problem in carrying on the church aid program in "Iron Curtain" countries. He said it was not too difficult to enter and leave eastern Europe on church business.

Railway Line In Klamath County Tied Up By Strike

KLAMATH FALLS, Aug. 30.—(AP)—The thirteen operating employees of one of the country's shortest class I railroads—the Oregon, California and Eastern—went on strike Monday morning.

Traffic was stopped completely on the 65-mile line running from Klamath Falls to Bly, wholly within Klamath county.

The strike was precipitated by a deadlock between the railway company and the Order of Railway Conductors over four claims for time pay, one request for a rest period between runs, and an issue over injury to an employee.

Officials of the Great Northern, currently operating the O. C. & E., said they received no written notice of the intention of the employees to strike, Sunday evening, they said, they were given verbal information that the tie-up would come at 12:01 a. m., Monday.

The O. C. & E. is jointly owned by the Great Northern and Southern Pacific. The parent companies alternate in five-year operating periods, the G. N. being currently in charge.

G. W. Lange, vice president of the conductors organization, is in to await developments. He said all requirements of the railway labor act have been complied with and that workers involved have unanimously favored the strike.

The railroad operates two freight trains daily. Its major business is in cattle, lumber and logs. It hauls logs daily from eastern Klamath county to the big Weyerhaeuser mill here.

Pickets were thrown up at the railroad yard office. Lange said there is no chance of the strike spreading to the bigger lines unless one of the parent companies should attempt to operate the O. C. & E. with G. N. or S. P. crews.

More than 95 percent of the nickel produced from the Sudbury mines in Northern Ontario, Canada, is exported to the United States, Great Britain, and other industrial countries.

Proposed Legislative Session To Set Up CVA Referendum Disliked

PORTLAND, Aug. 30.—(AP)—A special legislative session to set up a Columbia Valley administration ballot referendum was suggested Monday by State Senator Richard L. Neuberger.

The democratic legislator made public a letter he had sent to Governor McKay on the subject. The CVA proposal is now before congress and congressional hearings are due later this year in the region.

Sen. Neuberger pointed to McKay's statement that the people in the territory to be affected by CVA had a right to express their approval or disapproval at the polls.

The Multnomah county legislator suggested the governor call a special legislative session to put the CVA on the 1950 general election ballot. The session, limited to the CVA topic, would be inexpensive, Neuberger said.

SALEM, Aug. 30.—(AP)—Governor Douglas McKay indicated Monday he doesn't think much of the idea of calling a special legislative session to set up a referendum on the proposed Columbia Valley authority.

The governor said he hasn't received the letter from State Sen. Richard L. Neuberger, Portland democrat, and CVA advocate. Governor McKay didn't say yes, and he didn't say no.

But he pointed out that a special session of the legislature would cost \$75,000. And he said the law provides for initiative and referendum so the people could get issues on the ballot without special sessions of the legislature.

The governor opposes the CVA. SEATTLE, Aug. 30.—(AP)—A contribution of \$1,500 to finance promotion of the proposed Columbia Valley administration ballot referendum was suggested Monday by State Senator Richard L. Neuberger.

bia Valley administration has been authorized by the executive board of Washington State Federation of Labor, Evan M. Weston, federation president, announced.

Justice Rutledge III In Maine Hospital YORK, Me., Aug. 30.—(AP)—Supreme Court Justice Wiley B. Rutledge, 55, is "showing improvement" at York village hospital, a spokesman said today.

The 55-year-old jurist is under treatment for a circulatory condition, the hospital said. The judge's family declined to permit any further statements about his condition. Justice Rutledge was admitted Saturday.

There are an estimated 300,000 miles of city streets in the United States.

Fire Damage Slight At Kiss Lumber Company

Damage was reported as slight in a fire at the Kiss Lumber company on the N. Umpqua road Sunday, said Fire Chief William Mills.

Chief Mills said the blaze was confined to a small lumber pile and an adjoining shed. A grass fire in the 600 block on Fowler street was also investigated Sunday afternoon by city firemen. No damage was reported.

Association Will Try Regional Wool Sales

PORTLAND, Aug. 30.—(AP)—Regional wool sales will be tried for the first time this fall by the Western Wool Handlers association.

Eight sales are planned with 20,000,000 pounds of wool to be offered. The hope is to gain more buyers and induce higher bidding. The sale dates include: Portland, Sept. 19-21.
