### What It Means: Clothing Price

WASHINGTON—Signs in the windows of men's shops lately have reminded you of the good old days.

"Midsummer clearance!" "Everything Drastically Slashed!" Not in 10 years have the men's stores run such sales and offered so many bargains.

It's enough to make you wonder whether the haberdashery market have cracked. It's a visit with the experts in the Commerce and Labor departments, however, that tones down your hopes. To them the big midsummer sales represent just one more post-war readjustment and are no indication that prices of men's clothing will drop sharply in the near future.

Sales have fallen off a little in the past year—7 per cent in dollar volume, according to the Federal Reserve Board. This seems to have worried the storekeepers. They still had a lot of goods left over from the war and postwar days. They wanted to unload them before stocking up on new supplies.

Manufacturers' prices for new merchandise are not likely to decline very fast in the opinion of Commerce Department specialists. The prices of the two big elements that make up clothing prices—fabrics and labor—are fairly stable and are likely to remain so. The garment trades are strongly unionized, and the unions are likely to hold firmly against any severe cut in wages. While there has been considerable reduction in prices of some fabrics, materials which are in heaviest demand have dropped very little.

Nevertheless, the general trend of the prices of men's clothing, as well as of women's, is downward. The consumers' price index of the Bureau of Labor Statistics (BLS) discloses this. The price of all apparel reached its peak last October. Between September 1948 and June 1949 the price of apparel dropped 5.3 per cent.

This decline was in line with the price trends of other items which consumers buy. Between September and June food dropped 5.1 per cent and house furnishings 5.5 per cent. Rent is the only item which has not gone down—in fact, it is steadily rising.

The BLS figures show that the cost of women's clothing has dropped faster than that of men's. Between September and June the price of women's clothes fell 7.6 per cent. Men's fell 2.4 per cent. The reason is mainly that men's clothes are made largely of wool and the price of wool fell comparatively little. But cotton, silk and rayon, the materials from which most women's clothes are made, fell almost three to four times as much as wool.

The same factors have affected some items in the men's department. Men's pajamas have fallen more than any other item

### Radio Give-Aways Get Temporary Injunction

CHICAGO, Sept. 14.—(P)—Radio give-away programs got at least a temporary new lease on life.

Federal Judge Michael L. Igoe Tuesday issued a temporary order preventing interference with such programs until the issue is settled in the federal court of New York.

The Federal Communications Commission which declined comment on the ruling had banned such programs effective Oct. 1. Subsequently, the Columbia Broadcasting company, the National Broadcasting company and American Broadcasting company filed suit in New York challenging the order.

Judge Igoe's ruling puts the issue in the lap of the New York court. Until the point is settled there, the mushrooming give-away programs can go their lush way.

The injunction was obtained by Radio Features, Inc., a Chicago firm that produces syndicated radio programs. The firms claimed the order would cause it "irreparable damage."

Expecting a houseful of guests over the week-end? Then take a look at these unusually flavored recipes. They'll make everyone happy and boost your reputation as a hostess.

### Melted Cheese Souffle (6 servings)

Four tablespoons butter or fortified margarine, 4 tablespoons flour, 1/2 cup evaporated milk, 1/2 cup beer, 1 1/2 cups grated American cheddar cheese, few grains cayenne, 4 eggs, separated.

Melt butter or margarine in top of double boiler. Add flour; blend thoroughly. Add milk and beer all at once. Cook over hot water, stirring constantly, until thickened. Add cheese and cayenne. Stir over very low heat until cheese is melted; remove from heat. Stir a little of the sauce into the slightly beaten egg yolks. Stir into remaining sauce.

Beat egg whites until stiff but not dry. Fold into cheese mixture. Pour into a greased 1 1/2-quart casserole. Bake in a slow oven (300 degrees F.) 1 1/4 hours. Serve immediately.

### Star-Gazer Complains Of Searchlights In Sky

DETROIT.—(P)—Detroit's city council is seeing what can be done for the benefit of star-gazers.

C. J. King, a citizen, complained about the searchlights which play across Detroit's skies. "The sky, he said, is 'so much prettier the way God designed it.'"

"I realize business comes first and all that sort of thing," King wrote the council, "but please let us look at the stars once in a while."

### Magnuson Urges Appropriation For Ship Repair

WASHINGTON, Sept. 14.—(P) Senator Magnuson (D-Wash.) today urged giving \$25,000,000 to the Maritime Commission for immediate repair of 134 ships in the maritime reserve fleet.

This, he said, would be the start of an annual program to get in shape some 439 wartime merchant vessels regarded by the joint chiefs of staff as a minimum for defense purposes.

An immediate start on the reconditioning program also is essential for the nation's shipyards, he told a senate appropriations subcommittee now considering a bill to provide extra money for the commission.

"Unless it is done," he declared, "many U. S. shipyards will come to a standstill."

Since 1947, Magnuson said, there has been an average employment decline of 41 per cent in private shipyards. For the Pacific Coast he said the figure was 69 per cent, for Gulf yards 62 per cent, and north Atlantic yards 35 per cent.

The vessels he listed as due for immediate overhauls included: Pacific-34 in Suisun Bay (San Francisco), 10 at Astoria, Ore., 9 at Olympia, Wash.

### GOD'S WORD

9. And the third angel followed them, saying with a loud voice, If any man worship the beast and his image, and receive his mark in his forehead, or in his hand,

10. The same shall drink of the wine of the wrath of God, which is poured out without mixture into the cup of his indignation; and he shall be tormented with fire and brimstone in the presence of the holy angels, and in the presence of the Lamb:
