An easy way to frost a chocolate cake is to sprinkle it with a third cup of grated unsweetened chocolate mixed with three tablespoons of sugar and a quarter cup of chopped walnuts or pecans, as soon as the cake

comes out of the oven. Return to the oven for about three minutes or until the chocolate is melted.

If your food budget is a problem and you want to use thrifty

**Good Blouses Called 'Boon' To Wardrobe**

Like Mary's little lamb, you'll find that a good blouse wardrobe will go everywhere.

Four or five good classics, teamed with a couple of good skirts and belts, will take you through the four seasons with very little need for a change of face.

However, there are a few important things to keep in mind when assembling a shirt wardrobe.

First, be sure of the fit. Make certain the shoulders set right on your own. That the collar, if it's a convertible one, buttons close to your throat and that the sleeves have much in common with the length of your own arms.

Quality is equally important because you'll want to know that your blouses can go in and out of a tub as often as you do, without changing color or shape.

Fine finish and fine details are the next things to look for. Turn the blouse inside out to ascertain whether or not the seams are solidly sewn and finished.

Make a fruit whip for a quick dessert. Just beat the egg white until stiff with a few tablespoons of sugar and fold in the pureed dried or cooked fresh fruit. Serve over lady fingers in sherbet glasses if you like, and garnish with a cherry.

**New Mittens Have Warmth**

Mothers and children will welcome a new type of mitten, double-fleece lined for warmth and coated with neoprene, the Du Pont rubber, to keep small hands dry when making snowballs or building snowmen.

The tough, durable, waterproof neoprene coating prevents the lining of the mittens from absorbing water, and eliminates the discomfort of wet, chapped hands.

Called Eskimitts, the new mittens are roomy enough for complete hand-freedom, but are fitted around the wrist with closely knit, double-thickness wrist bands, which prevent snow from slipping down inside.

Part of the mittens' wristlets are also coated with neoprene, providing added protection from melting snow or rain. The wrist bands and the neoprene coating are brilliant red, the color most apt to capture the eye of a child.

The soft, woolly lining of the mittens consists of two layers of fleece which will keep hands warm even in very cold weather. According to tests made by the U. S. Army, more warmth is gained through multiple layers of cloth than through one heavy thickness.

**New Luggage Will Expand**

Here's a new wrinkle in wrinkle-free traveling! It's expandable luggage, destined to inaugurate a new trend in travel comfort!

No longer need the journeyer adapt his needs to his suitcase capacity. The new Revelation case accommodates itself to your requirements by a unique and patented feature in the locks and hinges. It automatically adjusts to twenty-two different sizes.

Weighing only about seven pounds, it is ideal for airplane flights, train or motor jaunts. What's more, it is the perfect clothes carrier for anything from weekend to month-long trips. No longer must the traveler supply himself with a large clutter of extra luggage pieces. Husbands and wives can travel as lightly as one with this expandable case.

**Formal Designs Coming In Traditional Showings**

Noticeable in the fall furniture collections are the more formal traditional styles—namely, Empire, Regency, and Biedermeier.

EASY TO ATTACH—This automatic phonograph, designed by RCA Victor, was designed for simple attachment to any radio. Ken Bushey of Miller's radio and record shop, demonstrates the ease with which it fits into any phono-jack on standard model radios. The phonograph is now being offered at the lowest price in history—and at a time when record-perfection and record-listening have reached an all-time high.—(Picture by Master Photo Studio).

**Texture Seen In Knitweaves**

The great importance of texture, the tweedy look and casual styles in Fall fashions is well expressed in the hand-knitted and hand-loomed dresses and suits for this season.

Lots of fresh style ideas have

been injected into knitwear, like high shoulder pockets, unmounted sleeves, the cardigan jacket, new "pleat" construction in skirts and more cuff details on sleeves.

New surface interest is achieved in stitches which give a tweed-textured surface in monotones as well as many more stitch patterns or yarns which knit up into the popular tweedy look.
