**HOME FOR FAMILIES MAKING \$40 A WEEK** — The new four-room prefabricated home above is being built by a subsidiary of U. S. Steel to sell for \$6300 or less, including a landscaped lot. Known as the "Champion," the low-cost house—designed for families making \$35 to \$40 a week—is being turned out by Gunnison Homes, Inc., at New Albany, Ind. Before long, it will be available in all sections of the country. The house is built largely of plywood. Features include forced air heat system, complete insulation and streamlined kitchen. Varied exterior designs will avoid "sameness" when the houses are built in groups. Prices will vary according to location, but the "Champion" is designed to sell for a down payment of as little as \$350, and monthly payments at about \$37.

### "Toothache" Reveals Piece Of Knife Blade

SAVANNAH, Ga., Sept. 22 — (P)—For 24 years, Earl Jackson, a Negro, carried a two-inch piece of knife blade in his face without knowing it. The left-over from a 1925 stabbing was embedded in his cheek bone. Doctors found and removed it when he went to them complaining of toothache.

Some estimates place losses from worthless checks in the U. S. as high as \$300,000,000 a year.

England's famed Fabian Society has never had more than 4,000 members at one time.

### Farthest East School In Douglas Enrolls 36 Pupils

The farthest east school in Douglas county, situated at Copco's Toketee Falls development, opened Sept. 6 with a beginning enrollment of 36 pupils, according to John Orr, superintendent. The enrollment, which is six times that of last year, can be expected to stabilize at around 15 pupils during the winter months. It is believed by officials at Toketee.

Facilities at this modern, one room school, erected and previously operated by Copco, compare favorably with that of any such school in the state. Ray Henderson, long time Douglas and Jackson county educator, is continuing as teacher at the Toketee school. Prior to Toketee, Henderson taught in the Medford school system, where he has his home.

The Toketee school fell under the direction of School District No. 12, when approximately one-half the Umpqua National forest lands, a small portion of both the Willamette and Rogue River National forests, and other territory was awarded to Glide, by a decision of the Douglas County Board of Directors, July 1, this year.

The district now encircles Diamond Lake, borders Crater Lake National park, and is by far the largest school district in Douglas county.

Thurs., Sept. 22, 1949—The News-Review, Roseburg, Ore. 5

**TIME SAVER**—Dr. Vannevar Bush (seated) and Dr. Samuel Caldwell of the Massachusetts Institute of Technology in Cambridge, demonstrate an automatic typewriter that photographs lines of type on film—which in turn can be used to make a printing plate. The whole process takes only five minutes and is expected to revolutionize the printing industry. The device is three times faster than the conventional typesetting machine. (NEA Telephoto)
