HITCHHIKER WITH A MESSAGE—Motorists near Denver, Colo., slow down perceptibly when they pass this hoary hitchhiker. The Rocky Mountain News posted the traveling skeleton for just that purpose—to give drivers a slight chill and a grim warning to be careful on highways.

Certificates Of Achievement Active Club Plan

Certificates of achievement for outstanding contributions to the community will be awarded local establishments by the Roseburg Active club.

Members of the club, meeting Thursday morning in the Shalmar, voted to make this recognition in order to stimulate community advancement. Arjo Jacklin was named chairman, with Frank Webster, Bill Gilman and Ray Ward assisting on the committee.

Announcement was made that plans have been completed for the appearance here Nov. 17 of "The Great Virgil," magician show.

Permission has been granted by Western Equipment company for location on its property north of Roseburg of a school shelter, built by the club. The shelter will

be moved as soon as it is painted. Dick Gilman reported on his recent hunting trip to McCloud district of Northern California. He was hunting with his father-in-law, a timber cruiser in that area. He told of hearing a shot and seeing something fall in the brush nearby, and then he and his father-in-law heard a sound as though two persons were running. They later investigated the supposed kill, and found a 140-pound buck deer. He said even though California hunting license fees may be steep at \$35, it is rather nice to have someone else make sure you get your buck.

Elkton

By PHYLLIS A. SMITH
Elmer Buck Fenton was instantly killed by electric shock Monday, at the Ora Willigan home west of Elkton. This man was employed by the John Beck Well Drilling Co. and it was his first day on the job. A piece of casing that he was lifting in place tipped and touched the power line.

The accident occurred about 1:30 p.m. and he was not discovered until 5 p.m. State Police Officer Johnson, Dr. Imboden, Coroner Harry Stearns, and R. E. A. Manager Harold Backen were called to the scene of the accident.

Quick thinking on the part of Andy Munson may have saved other lives, as he stayed by the body until the coroner arrived, as the well drilling equipment was heavily charged with electricity and anyone touching any part of it would have been instantly killed.

Mr. and Mrs. Cecil Hauge and family of Sutherlin spent the weekend at the James O. Haines home, where Mr. Hauge helped to pour the foundation for the Haines' new house. Mr. and Mrs. John Levenhagen are enlarging their living room by enclosing their front porch. Mr. and Mrs. Donald Mode have repainted their home. The Jim Adams are again working on their new home in Elkton. New residences under construction at Kellogg are the Barlight and Toenniges homes. Mr. Barlight is employed at the Madison mill and Toenniges hauls lumber.

Opens Branch Office
The Elkton Bookkeeping system is opening a branch office in Sutherlin. Bob W. Cowbrough will be in charge of the Sutherlin branch.

Sunday guests of Mr. and Mrs. E. J. Madison were Mrs. V. T. Jackson, Mrs. Birdie Barker, Mrs. Robert Flinday, Mrs. Orville Wright and son, and Mrs. Pete Rudolf and sons all of Roseburg.

Mrs. Dora Traylor is reported improving in a convalescent home in Eugene. Grandmother Traylor fell two months ago and

broke her hip. Mrs. Kenneth Madison has been teaching the first graders in Mrs. Colclasure's absence. Mrs. Colclasure has been ill with a severe cold.
