Soviet Satellite Republic Planned In East Germany

BERLIN, Oct. 5.—(AP)—Fear of Anti-soviet Titoism was admitted today by German communists hurriedly forming a Russian satellite republic in Eastern Germany.

The republic is due to be proclaimed in Berlin Friday at a special session of the communist ruled German People's council. Eastern non-communist parties were reported promised less than a third of the Ministries as a price for waiving demands for a popular election.

In a vital public declaration of policy today, communist chiefs-tains served notice they would fight the eastern republic to fight the "Quislings" of the West German Federal republic, sponsored by the United States, Britain and France.

They warned the communist rank and file at the same time to beware of a "Traitorous Tito Clique" within their own party which would try to stir up hatred against the Soviet union and foster "chauvinism."

Moscow's press this morning published dispatches from Berlin that the German people had demanded creation of a government not bound by "the colonial occupation statute."

Steel Export Cut May Be Forced By Strike

(Continued from Page One)

In a few cents an hour, too. No negotiating sessions are in sight. The government is keeping hands off for the present.

That doesn't mean the government isn't concerned. Secretary of Commerce Charles Sawyer, says he's considering imposing export controls on steel. That would keep more steel in America, prolonging employment in many industries in case the strike isn't ended soon.

Almost as Sawyer was talking, Westinghouse placed a number of home appliances on an allocation basis to distributors and dealers. These include large model refrigerators, electric ranges, washing machines, clothes driers, vacuum cleaners, water heaters and fans.

J. H. Ashbaugh, vice-president of the company's appliance divisions, summed up Westinghouse's position this way: "We have enough steel on hand for full production this month. But we will have to start cutting back operations at our plant here (Mansfield, Ohio) and in Springfield, Mass., by November 1."

Repercussions of the steel walk-out are coming from Detroit. For the most part, auto companies have enough steel on hand to make autos for a month. However, 8,000 employees of Packard Motor car company will be idled tomorrow and Friday. Packard wants to survey the situation and adjust its working schedule to the supply of steel on hand.

Reports of sporadic violence come from the soft coal fields daily. The latest flareup was in Virginia last night. A few arrests were made.

In Pennsylvania a coal tippie—coal preparation structure—was damaged by an explosion yesterday at the C. V. Fink and Son mine near Clearfield.

A meeting between the UMW and the Southern Coal Producers association ended on an optimistic note at Bluefield, W. Va., yesterday. There were reports the operators had made some sort of an offer. It couldn't be confirmed, but President Joseph E. Moody declared he believed the negotiations have "turned the corner."

The coal strike fanned the flames of a minor war between union and non-union miners today.

Nearly a score of men were arrested in Virginia and Pennsylvania. This resulted from battling between pickets and unorganized miners still working in defiance of John L. Lewis and his striking United Mine Workers. No one was injured but several truck loads of coal were dumped.

There was sound reasoning behind Shotton's choice of his home-sized freshman to oppose Luyk, a 176 winner for the Yankees.

Newcombe was knocked out of the box Sunday in Philadelphia but he is a big strong fellow who can go three times. If necessary, in this best-of-seven competition, Roe, slender and wiry, could be pitched once more in a long series, providing he starts tomorrow as expected.

Windstorm Rips Portland Roofs

PORTLAND, Oct. 5.—(AP)—A gust of wind tore parts of roofs off two factories in north Portland today.

The blow, which struck following Portland's heaviest rain since May, tore a 50 by 75 foot section of composition roofing off the Montag Stove and Furnace factory. A smaller piece of roof was ripped from an adjoining shed.

Roof fragments blew through the air and smashed into two trucks 100 feet away. One windshield was broken, and the hood of the other truck torn off.

The gust blew out panels and part of a roof at the Nicolai Door Manufacturing plant, in the same area.

The storm dumped 1.22 inches of rain on Portland during the last 24 hours. Only one Oregon town was wetter: Brookings, which got 1.92 inches.

assessor reveals this year's tax rate will remain the same as it was last year, even though many new improvements have been made.

"Tax rates and assessed valuations for the years ending June 30 each year are listed as follows:

Year	Assessed Valuation	Tax Rate
1945	\$4,577,500	12.7
1946	4,955,140	14.5
1947	5,107,985	12.8
1948	5,882,535	20.0
1949	6,758,770	15.6
1950	7,323,000	15.6

"Through annexation, a budget for improvements can be raised and the tax rate kept down, because of increased incomes from state liquor taxes, motor vehicle licenses and county road funds. These taxes are paid by the people now with no part going to the city treasury.

"In most of the cities of Oregon, there is considerable competition. A city must progress or improve; to improve there must be growth through expansion."
