

Allies Getting Tough Toward Soviet Moves

(Continued from Page One)

Webb issued a strongly-worded statement charging that Russia, having already reduced eastern Germany to "an oppressive police state," is now trying to set up a "dictatorial unrepresentative" government there.

East German Republic Is New Russian Satellite

BERLIN, Oct. 7.—(AP)—The East German republic—Russia's newest satellite—was proclaimed today under the leadership of German communists.

The German peoples' council, heretofore a pro-Soviet public forum without any legal powers, voted unanimously to become immediately the lower house of the "German democratic republic."

The Germans now have two separate regimes—the one for the eastern part of the country established today and the recently formed west German government which has authority in the American, British and French occupation zones.

A president, premier and full cabinet for the east German republic will be named next week. The new republic was built up without the formality of elections in a week of intensive Soviet-fostered propaganda.

Both the east and west governments hope ultimately to be the government for all Germany.

How the ideals of Paul Harris, founder of Rotary International, are spreading throughout the world was told at the Roseburg Rotary club luncheon Thursday by Charles R. Cooley, Grants Pass district governor.

Cooley said that Rotary is now growing faster outside the United States than within. Since the end of the recent war, at least 14 Rotary clubs have been re-established in Japan. There are 10,000 clubs and 330,000 Rotarians throughout the world, he said.

Rotary, as a world fellowship of professional and business executives, is "implementing the Golden Rule," he pointed out.

uncertain. Rowe said that the scheduling of an annexation election Nov. 1 is only "muddying up" the situation. A number of West Roseburg residents recently presented petitions to the city council, seeking annexation to the city as a means of securing sanitary improvements.

The unofficial sanitary committee, headed by Rowe, recently retained James Howland, Corvallis, consulting engineer, to make a preliminary survey. Howland reported that financing of sewerage installations would be "feasible."

Rowe said the next step will be to retain the engineer to make a detailed survey, in order to determine the amount of a necessary bond issue to finance construction of sewerage lines.

If West Roseburg residents vote Nov. 1 to annex themselves to the City of Roseburg, unofficial opinion is that the new sanitary district will continue in existence, but authority of the sanitary board over portions of the district within the city limits would be assumed by the city council.

In yesterday's election, written votes were cast for the following persons as directors: N. D. Johnson, 3; John Pinkerton, 1, and A. J. Ellison, 1.
