Truman Supports 90 Pct. Parity Price For Crops

WASHINGTON, Oct. 10. — (AP)—Rep. Cecil F. White (D-Calif.) quoted President Truman today as saying he strongly favors 90 per cent parity price supports for the basic farm crops.

White said he called on Mr. Truman to urge him to support 90 per cent parity price supports against the flexible 75 to 90 per cent supports in the farm bill now before the Senate.

"The president informed me he has been supporting 90 per cent all along and will continue to do so in accordance with his promises to the people in the last campaign," White told reporters.

In view of the Senate's rejection of the 90 per cent supports last week, White said the battle for them will probably have to be carried over into the next session of Congress beginning in January.

He said Mr. Truman told him he "isn't going to attempt to interfere" with congress's action on the pending farm bill.

The Californian added that both he and the president hope to get a farm law carrying out their ideas, "if not at this session, then in the next."

Senator Lucas of Illinois, the democratic Senate leader, has backed the pending bill of Senator Anderson (D-NM), former secretary of agriculture, which provides for flexible price supports at 75 to 90 per cent of parity. Parity is a price designed to give the farmer a fair return for what he grows in relation to what he buys.

The Senate is to renew debate on the farm bill tomorrow.

It will consider an amendment by Senator Magnuson (D-Wash.) to keep out foreign agricultural products if their entry would conflict with U. S. farm-aid programs.

It is silly to spend millions of dollars supporting prices for farmers, Magnuson contends, and at the same time enter into tariff-cutting agreements that allow competitive farm imports that depress prices.

Senator Anderson (D-NM), floor manager for the flexible price support bill under consideration, told a reporter that Magnuson may be able to muster enough votes to make his amendment stick.

Last week a similar Magnuson move was narrowly defeated 37 to 35 on the ground that it would impede the reciprocal trade agreements of the administration.

Regulate your own hot water with Fowler Economy Temperature Control

Hot water flows from your faucet at just the temperature you desire! Not only automatic, the Fowler Economy Temperature Control is adjustable.

How handy just to turn the dial to any temperature, ranging from about 125° to 175°, depending upon your special demand for hot water. Perhaps a heavy washday, coupled with a round of showers would call for a peak-hot supply. Again lower temperatures would suit other needs. Water is sparkling clean too, for the Fowler water heater is glass-lined—double coated with porcelain to protect the water from tank rust. The "black heat" elements and 3-way insulation provide low operating cost and a long-life water heater. It's no wonder Fowler is backed by a 20-year replacement guarantee. Order your Fowler!
