

ADMIRAL FLAYS B-36—Adm. Arthur W. Radford (right), Pacific Fleet commander, is greeted by Rep. Carl Vinson (D, Ga.), chairman of the House Armed Services Committee (left), as he arrived to testify before the committee in Washington. Adm. Radford told the congressman that the Air Force's B-36 bomber is a "bad gamble with national security" and would be "useless defensively and inadequate offensively" in an atomic war.

NEW HELP FOR COTTON PICKERS—This new semi-mechanical cotton picker, being demonstrated at West Memphis, Ark., can gather in 3200 pounds of cotton a day. With the aid of eight compressed air suction tubes, the operators draw the cotton from the boll. The cotton is then deposited in the wagon behind the tractor and taken directly to the gin. Since the pickers do not have to drag a heavy bag of cotton behind them, the new machine greatly speeds the picking process.
