**Truman, Party Aides Disagree On Farm Policy**

WASHINGTON, Oct. 12.—(AP)—President Truman called Democratic congressional leaders to the White House Tuesday and urged them to reach a quick agreement on the farm bill.

The congressional delegation members were silent as they strode out of the White House after an hour-long conference in Mr. Truman's office.

Differences among Mr. Truman's leadership in the Senate on farm price supports have imperiled passage of a new farm measure.

Presidential Secretary Charles G. Ross told reporters afterwards that no agreement was reached at the White House party.

"The President asked them to get together on a bill he can sign," Ross said. "He asked them to adjust their differences."

Ross would not say what sort of bill Mr. Truman would sign, however, when asked if the President would veto an unsatisfactory bill. Ross replied "You may make what implications you please."

Rep. Cecil F. White (D-Calif.) said yesterday, after a talk at the White House, that Mr. Truman strongly supported legislation providing price supports of

DIAL-LOG  
PROGRAMS

A person who could foretell future events with astounding accuracy involves "The Cisco Kid" and "Pancho" in one of their most gripping adventures, during the "Prophecy of Boot Hill" tonight at 7:30. Tune in "What's the Name of that Song?" at eight, with Bill Gwinn as emcee. Bill is one pedagogic who literally took to practicing what he preached. And currently he's doing it double: Bill's the big and bubbling emcee of "Song" heard on the Don Lee network, and also seen on Don Lee's TV station, KTSL, Hollywood, but at different times. In this capacity he serves a prime example of his former teachings as the head of the drama and speech department of the College of Marin, in northern California. When not busy with his professional "baby," as he terms the veteran favorite show, Bill is a happy homebody, husband and father. His family consist of his wife, Dorothea, and sons Michael and Bill Jr. Bill and Dorothea were married twenty years ago, while he is still attending Stanford. His favorite sport, boating and fishing, naturally is the second favorite of six-footer Bill.

**AROUND THE STUDIO:** Engineer Carl Arndt back from two weeks' vacation in the Midwest... Receptionist Betty Crocker had a worrisome pair of tonsils forcefully removed yesterday morning. Her diction isn't so good thus far, being limited to an occasional "tup"—or "blurb"—but otherwise, she's feeling quite chipper, thank you; Engineer Max Dick is on a weight-gaining campaign... had to purchase a new pair of jeans for a recent hunting trip... the largest pair he's ever owned... size 32! Mrs. Dick has only one complaint... she can't get her arm around his waist anymore for a wifely hug.

**NEWS REVIEW ADVERTISING IS SEEN, READ and REMEMBERED!**

90 percent of parity on basic crops.

Senate Democratic Leader Lucas (Ill.) and Senator Anderson (D-Minn.), former secretary of agriculture, have been leading the fight for a sliding scale support system ranging from 75 to 90 percent.

Parity is a price calculated to give a farmer a fair return for the things he sells in relation to the prices he pays for goods that he needs.

Chairman Elmer Thomas (D-Okla.) of the Senate Agriculture committee also has been talking about tossing the Brannan subsidy plan into the Senate scrap on farm legislation.

The Brannan plan—named for Secretary of Agriculture Brannan—would let prices of perishable crops drop to whatever the market will bring. If prices fell below a "fair" level, the government would make up the difference by direct payments to farmers.

Its introduction into Senate debate on farm legislation could stir up quite a ruckus—just when the dust was settling on the fight over how high government price supports for major crops should be.

After a zig-zag course, the Sen-

**AFL Convention Spurns Political Link With CIO**

ST. PAUL, Minn., Oct. 12.—(AP)—Possibility of a political alliance between the AFL and CIO apparently was wiped out Tuesday—at least for the time being—by the former's decision to go its own way.

Delegates to the American Federation of Labor convention voted at the closing session last night against making any formal alliance with the CIO or any labor and farm groups.

William Green, 76-year-old president, was reelected to his 26th straight term.

By unanimous vote the convention adopted a substitute proposal—backed by the organization's top officers—specifically calling for separate AFL political action.

Last year the AFL voted to invite John L. Lewis and his United Mine workers to return to the AFL fold. At present, however, there seems no disposition on the part of AFL leaders to woo Lewis.

This won't mean local AFL and CIO groups will stop working together. For instance, Philip Hannah, a leader of the AFL's Ohio State federation, told reporters all Major Labor organizations in his state are cooperating in an effort to defeat Sen. Taft (R-Ohio) next fall.

The AFL also expects to make a new effort to get back the now-independent Machinists union, which claims more than 600,000 members.

The only criticism of AFL leadership developing at the convention came from Woodruff Randolph, president of the International Typographical union. In a speech at last night's final session, he complained of a lack of AFL sympathy and moral help in the printers union's legal tussle under the Taft-Hartley act.

Nobody replied to Randolph.

The convention endorsed most of the Truman Administration's legislative program but suggested a \$1 hourly minimum wage instead of the 75 cent minimum now being pushed in Congress to replace the present 40 cent floor.

If you do a lot of baking it is wise to have a four-cup set containing 1-4-1-3-1-2, and leup mea sures. Use these measures for fat and flour. In measuring fat, pack it firmly into the measure and level off the top with a spatula.

ate finally rejected last week, 45 to 26, an amendment of Senators Russell (D-Ga.) and Young (R-Ind.) to put price props under wheat, corn, cotton, tobacco, rice and peanuts at 90 percent of parity.

**SHELL**

**"Activated" Shell Premium is the most powerful gasoline your car can use!**

YES, many of today's engines have been stepped-up... they call for more powerful gasoline! Now Shell gives you the most powerful gasoline your car can use—Shell Premium—it's "activated." No other fuel can top its power in your car!

This is made possible by Shell's own, specially produced power components and by Shell's own blending methods!

Actually, Shell splits molecules to get more power for today's more powerful engines. So you get a gasoline that's "activated" 3 ways!

- 1. Activated for knockless power!**  
Pulling hard in low gear or traveling at full throttle, Shell Premium delivers full, quiet power!
- 2. Activated for fast "getaway."**  
Shell Premium delivers the extra power you can feel—no "balking," no "stuttering"—you go!
- 3. Activated for full mileage.**  
Shell engineers "balance" Shell Premium so that every drop of fuel goes to work for you!

**Activation makes the difference**

Shell splits molecules: Shell scientists take the finest available crude—activate the molecules by splitting them and rearranging the atoms according to Shell's formula for a perfectly balanced gasoline. The result—Shell Premium, the most powerful gasoline your car can use!
