

**PROPOSE ANNEXATION** — The above map shows the Miller's addition and Sleepy Hollow districts immediately south of Roseburg, lying east of South Main street. The area has petitioned for annexation to the city, and a vote will be held in the district Nov. 1. At the same time West Roseburg residents will vote upon annexation. If either area, or both, vote favorably, the city will then hold an election to vote upon acceptance.

**Effort To Settle Strike Is Begun By Government**

PITTSBURGH, Oct. 11 —(AP)—The government's conciliation service has taken on the biggest job in its history—trying to settle the twin steel and coal strikes. Before the week is out, U. S. Conciliation Director Cyrus Ching will meet separately with leaders of the striking CIO United Steelworkers and industry leaders. At the same time, the conciliation director will watch developments in the coal strike. It was Ching who got John L. Lewis, United Mine Worker's president, and coal industry operators to

agree to go back to the bargaining table tomorrow. Neither the steel industry nor Philip Murray, president of the steel workers, had any comment after Ching announced yesterday the government was stepping into the steel walkout for the fourth time. Before the strike started 11 days ago the government made three futile peace efforts. Murray went ahead with plans to delivery pep talks to his 454,000 strikers. The first talk is scheduled today at Youngstown, Ohio. That mighty industrial town has been hit hard by the steelworkers' walkout to support demands for free pensions and insurance. **Government Shows Concern** Ching's brief statement in Washington that he is setting up

"separate and informal conferences" with leading steel companies and union leaders left little doubt that the government all along has been gravely concerned with the crippling steel strike which threatens to spread unemployment to additional hundreds of thousands in allied industries. The government will be working against time in its effort to get the steel strike settled. Contracts of a half-million steelworkers in fabricating plants—where steel is the basic product for hundreds of articles—began expiring Saturday. They'll continue to run out through mid-December. And Murray says the union will call a strike in each case where fabricators won't provide free pensions and insurance. A total of 10 small firms has agreed to pay workers a 10-cent

**Diphtheria Claims Life Of 2nd Child At Medford**

MEDFORD, Oct. 12 —(AP)—A second death in three days was attributed to diphtheria here Tuesday. Dr. A. Erin Merkel, county health officer, said a five-year-old girl had succumbed. Previously a 13-year-old boy died over the weekend. Merkel said, however, that no new diphtheria cases had been reported in the last day and a half. Five cases have been reported in the outbreak, all from the same grade school. Nearly 300 children were immunized, and additional vaccine was ordered flown in from Berkeley, Calif. and Portland. Meanwhile school attendance slumped. It was off one-third at one school.

persions and insurance package without employee contributions. That is the exact recommendation of the presidential fact-finding board which tried unsuccessfully to head off the walkout. The latest firms to give in to Murray are Kelsey-Hayes Wheel company, near Pittsburgh, and the Massey-Harris company at Batavia, N. Y. The latter is a steel fabricating firm with 2,000 employees. Kelsey-Hayes has 630 workers.
