West, South Hit By Winter Debut

By The Associated Press A swirling white preview of winter banked five-foot snow drifts in Montana today and dipped temperatures in the Rocky mountains area as low as 12 degrees.

The windy snowfall was in contrast to the pleasant autumn weather which prevailed over most of the eastern half of the country. North winds, recorded at 55-mile speed in top gusts, piled the snow which fell mainly on the eastern slopes of the Northern Rockies and in the Northwest plains area adjacent.

No emergency conditions were caused by the storm, authorities said. The early morning minimum of 12 degrees above zero was reported at Cut Bank. The mercury was under the freezing mark at most Montana points.

Bain fell on the fringes of the snow area—in Northwestern Utah and southern Wyoming. A heavy pall of fog and smoke developed early today over the Chicago area, causing a number of accidents on streets and highways.
