BULLET IN CONDITION OF GOOD BOON FLY OF MOON ROCKET REMAINS UNCHANGED!

YEZZIR, TH' MID'S DOIN' HIM GOOD! KEEP IT COMIN'!

Zinc Chromate in Gas Tanks Ground Aircraft

SAN BERNARDINO, Calif., Oct. 18.—(AP)—Capt. H. M. Brockett, public relations officer at the San Bernardino air force base, said that "some" C-47 transport planes have been grounded because zinc chromate fillings were found in the gasoline tanks. "There is absolutely no evidence of sabotage," he said.

Zinc chromate, he said, is used to coat the inside of the tanks to fill the seams. Capt. Brockett said two inspectors noticed that in some instances the material was peeling and particles were being found in the tanks.

The officer said he knows of

No Northwest Hearings On CVA Until December

WASHINGTON, Oct. 18.—(AP)—Chairman Chavez (D-NM) of the Senate public works committee announced Wednesday it will hold no hearings in the Pacific Northwest before December on President Truman's proposal to create a Columbia Valley administration.

The committee conducted a hearing here earlier this year on the proposal. It had been proposed that others be arranged in the area this month or in November. Chavez said this will be impossible.

"The hearings in the field will be held, definitely, but I cannot announce any dates until some time in December," Chavez told a reporter.

"We will want to spend what time is needed in the Northwest giving deliberate study to the proposals for development of the Columbia, and return to Washington with the views of the citizens, and this will mean that we cannot make any rushed trip."

no accidents that have been caused by this. Capt. Brockett said a careful investigation is being made and that 2,600 tanks destined for use in C-47s are being re-checked.

Navy Task Force Will Hold Fleet Maneuvers

WASHINGTON, Oct. 18.—(AP)—Navy officials said today the second task fleet will go out on maneuvers in the North Atlantic next month.

The purpose of the operation will be to test cold weather equipment on planes, carriers and fighting ships and work out tactics for arctic conditions.

Special emphasis is put on anti-submarine operations.

A large part of the world's clove supply produced by the islands of Zanzibar and Pemba is threatened by an insect pest known as the "hot water" ant.
