

(NEA Telephoto) **MATRIMONIAL PLANS HINTED**—Mayor William O'Dwyer (right) encouraged speculation about whether he was planning to marry Sloan Simpson (left) when he said, "I will discuss that after election," when questioned about possible matrimonial plans. Miss Simpson, a New York model, has been his guest frequently at public functions. O'Dwyer, 39, is a candidate for re-election in the November election.

Price Protection Offered For Four Seed Crop Types

Farmers in Douglas county who grow winter cover crop seed can obtain government price protection through two methods, J. F. Bonebrake, chairman of the county ACA committee, points out. Purchase agreements as well as commodity loans are offered farmers as a means of supporting the price of the 1949 seed crop.

Mr. Bonebrake says that both methods of price support are also available in Douglas county for 1949 crops of barley, oats, rye, and wheat. Both loans and purchase agreements may be obtained at the county ACA office. The program closing date is January 31, 1950.

The chairman explains that under purchase agreements, the producer states the maximum quantity of the commodity upon which he wishes an option to deliver to the Commodity Credit corporation near the end of the price support period. The producer may then at any time sell his crop on the market at the designated time he may deliver to CCC any amount of his crop up to the stated maximum at the price support figure. Producers desiring to deliver purchase agreement grain to CCC must declare their intention during the 30 days before maturity of the crop loan, support figure. Producers desir winter cover crop seed in Jan. 31, 1950.

Price support rates per bushel for wheat and other 1949 grain crops in Douglas county are: wheat, 1.93; barley, 1.16; oats, .68; and rye, 1.31.
