**WORKS WITHOUT BICYCLE**  
TOLEDO, O. — (AP) — Ralph Smith, 18, of Toledo was stubborn about paying a 25-cent license fee on his bicycle. Municipal Judge Homer A. Ramey fined him \$5 and costs for operating his bicycle without a license. This amounted to \$8.70. Smith couldn't pay the fine. He was sent to the workhouse to work it out at \$3 a day.

Don Lee Station Relations Director Pat Campbell spoke to us via closed-circuit the other day—(same thing as a telephone conversation, only you can't talk back). At any rate—Mr. Campbell disclosed some interesting facts regarding Daylight Saving Time in California. Seems the DST Bill will be hashed over in a special half-hour broadcast. . . . discussing daylight saving time as a clock-switch for California. . . . and the problem of time-uniformity up and down the entire West Coast. Your concern over D.S.T. may be slight. . . . even indifferent. Our concern is overwhelming, in the light of radio program upsets. Therefore, it must follow that your concern is aggravated somewhat also when the prospect of a complete program schedule upheaval rears its ugly head. The half-hour broadcast mentioned ("Daylight Savings Forum") will be released on KRNR tomorrow (Sunday) 6:30 to 7 p. m. You're invited to join us in listening.

## Truman's Tax Increase Talk Meant Realignment Of Present Structure, Senator Magnuson's Explanation

WASHINGTON, Oct. 28.—(AP)—Senator Magnuson (D-Wash.) said Thursday that when President Truman last week talked about a tax increase he referred to realignment of the tax structure and not to a general tax increase. "He was not speaking about an increase in the individual income tax and particularly not about the lower income brackets," Magnuson told a reporter.

"He was referring to a readjustment of taxes, particularly corporate taxes. We repealed the surplus tax three years ago and Mr. Truman has suggested that it be re-enacted.

"The public, generally speaking, is not going to have any tax increase next year. It may mean that corporate dividends may have to be lowered."

Magnuson, a close friend of Mr. Truman, said that even corporate taxes may not have to be increased. "This is because about \$16,000,000,000 of the government expenses are for defenses, \$5,000,000,000 for the Marshall plan and roughly \$3,000,000,000 for arms aid to Atlantic pact countries and economies and decreases in those items may enable the government to balance the budget without a tax increase.

Last Thursday Mr. Truman told a news conference he would ask Congress for higher taxes next year. He said he would recommend ways to keep the government from having a deficit and if there is any other way to do it than by increasing taxes he

## Doctors' License Subject Of Opinion By Neuner

SALEM, Oct. 28.—(AP)—The only State Medical association has been giving me a bad time with their protests against the state hiring unlicensed doctors." McKay said the state has a hard time getting licensed physicians to work at the hospitals because the pay isn't large enough. So, he said, the state has hired unlicensed physicians, including some European doctors who were forced to come to America by the war.
