NO NEED FOR NOOSE

By CHARLES V. STANTON

We listened with much interest Monday to State Senator Austin Flegel's talk at the Roseburg Chamber of Commerce forum luncheon program. The senator earnestly advocated the Columbia Valley administration.

It is easy to understand why he has had outstanding success in his campaign for CVA, for he gives down-to-earth, practical arguments in contrast to the visionary messages from CVA's prime minister, Girard Davidson, assistant Secretary of the Interior, who has been the project's No. 1 spokesman.

Senator Flegel at least touched upon the bill itself, something most of the proponents shun. But his argument has the same weakness to be found in all advocacy of CVA-a wezkness inherent in the bill-that of three men holding a loaded gun pointed at the Pacific Northwest.

The speaker said he would have "faith" in the three political appointees, who would be named by the President to administer CVA. "Jebby" Davidson, presenting the same argument, frequently uses the word "intent." But it all adds up to the same thing-three men with power to do about anything they please with the resources of the Pacific Northwest, its development, exploitation, finances and government. These three men could bankrupt every county in western Oregon through their determination of money to be paid in lieu of taxes. They would have authority over land and its uses. They could virtually take over state government through reprisal if administrative or legislative action failed

This power, in our opinion, should not be placed in the hands of any three men, no matter how able or sincere they may be. Their "intent" might be the best in the world, but no board of three men can be expected to function without error and no administrative body, bearing the responsibility imposed upon the directors of CVA, should be vested with as much authority as provided in the Act without a better system of checks, balances, appeal and review. The proposed Act has too many provisions that decisions by the board shall be "final."

Proponents of CVA dwell at great length upon inefficiency, waste, extravagance, duplications, etc., in present river development operation. No one can quarrel or disagree with that premise. In our opinion, it would be a grave error to continue the present methods and lack of over-all planning.

But we believe a successful and efficient river development program can be initiated and operated without changing our form of government and placing our necks in the noose of bureaucratic dictatorship. The Hoover commission report offers one solution—a solution to which CVA advocates object because control would be from Washington instead of through a three-man commission having headquarters within the region. Just as if we were gullible enough to believe that the three-man board wouldn't be tied to the apron strings of the Secretary of Interior and wouldn't have to take its orders from Washington on virtually every matter of major importance.

But instead of taking those orders from the Congress, it would get them from the President and Secretary of the Interior whose decisions would be measured largely by

We have no quarrel with public power. The federal government has assumed authority over many of our resourcesforest, migratory fowl, mineral rights, irrigation, grazing, commerce and others-and, having formed a policy of conservation of resources, may well include development of water for power, navigation, irrigation and other uses.

CVA advocates point to the importance of this conservation program and the need for its expansion in an orderly rather than haphazard manner. The argument, however, does not concern the PURPOSE but rather the METHOD proposed to achieve that purpose. And, in our opinion, it would be most unfortunate if critics of CVA should succeed in beating the proposal without substituting therefore a method whereby the same results can be obtained without accepting a loaded gun at our heads and a noose about our

show more willingness to join in a single economic unit."

ET'S put it this way: If we of Oregon had to cross an international frontier every

an international frontier every time we went to California, or Nevada, or Idaho, or Washing, ton—all of whose borders touch ours—we wouldn't make much business progress.

When you cross an international frontier, all your possessions have to be overhauled and checked for tariff duties. (Also for pistols or bombs you might be carrying to knock off the ruler of the country you are entering.) What happened even in the most unrestrained days of the California "bug" stations isn't a caution to what happens when you cross a European international boundary.

That isn't all.

Every time you cross an inter-national frontier you tackle a new kind of money. Even learning how to buy things with the new money to buy things with the new money is quite a chore. When to that you add a strange language, returned to the scene of the you're apt to be up a tree without knowing just how to get down.

Appeals Court Unfair To NLRB, **Charge Listed**

WASHINGTON, Nov. 2—(P)—
The National Labor Relations board has protested to the Supreme court that it isn't getting a fair deal in the fifth circuit of appeals which takes in six southern states.

The complaint is made by Solicitor General Philip B. Periman in petitions appealing five labor

in petitions appealing five labor cases from the appellate court. Periman said the cases were not ones which ordinarily would be barried to the tribunal but would bring "to the court's attention the special seriousness of the board's enforcement problems in the court below."

Under the law, the labor board must go to the courts for enforce-

Under the law, the labor board must go to the courts for enforcement orders.

Periman cited what he called a "pattern of denial" of NLRB rights in the fifth appeals court and said the "inordinately large number" of labor cases before it "bodies ill" for those now in lower courts.

obuser ourts.

The fifth circuit court handles cases in Georgia, Florida, Ala-Texas and the Canal Zone, It is headed by Judge Joseph C. Hutcheson Jr., of Houston, Tex., bit ter critic of the NLRB.

Hutcheson once complained in a speech of the "arrogance and tyrannical impatience" of the

board.
Periman submitted figures to the Supreme court which he said showed that NLRB has not fared as well in the fifth circuit as in

Updraft Stymies Chaplain Barney In 'Chute Descent

Chaplain John Barney, captain in the 82nd Airborne division, had an unusual view of a recent divisional review before President Truman, but he didn't overly enjoy the privilege.

Making his 15th parachute jump, Barney's chute carried him into a thermal updraff where the rising air current stopped his descent and held him almost motionless in the air while other paratroopers were dropping around him, threatening any moment to strike and collapse his "umbrella." But he finally drifted out of the updraft and made a normal descent.

Captain and Mrs. Barney and

Youth, 11, Commits Perfect Crime-Almost

OKLAHOMA CITY, Nov. 2.— (P)—The 11-year-old almost com-mitted the storybook perfect

The youth took a wristwatch from a drug store here. He immediately turned it in to the school lost and found.

Nobody showed up to claim it, and the watch went back to the "finder".

If must be difficult still for him to reach for a pen when a prospective customer approaches, instead of a pair of pliers; for only recently he was a garage man. For nearly 30 years he operated Stephens garage on North Main street.

Then the young mastermind went back to the drug store. This time the manager grabbed him, to the policy of one state buy the products of other states and the bright little tyke confess-

Diphtheria Suspected In

MEDFORD, Nov. 2. — (P) — 65-year-old woman died here Monday of what tentatively was diagnosed as diphtheria. It

cases reported until Dr. A. E. Dodson said the woman's death appeared to be from diphtheria. She succumbed at Sacred Heart hospital, where she had been an invalid for some time.

GLASS FOAM IS CORK
DENVER — (A) — The University of Denver Industrial Research Institute is making glass foam, which in effect is a mass of tine vacuum bottles. The purpose is improved insulation against heat. A chunk about as big as an ice cream cone may contain about a million of the tiny jugs.

this new glass material is white, strong and about as light weight as cork. It is intened to be a substitue for cork and is a development for the U.S. Army Quarter-master Corps. Powdered glass, mixed with a little pow-dered cadmium is meited. The glass becomes fluid. The cad-mium vaporizes. This cadmium vapor forms minute bubbles all wapor forms minute bubbles all through the glass. The hot glass rises like baking bread. When the glass loaf cools, the cadmium bubbles condense to metal again. The metal coats the inner surface of the bubble, leaving a vacuum the size of the bubble.

GOES TO NEW CITIZEN WASHINGTON — (P) — Mrs. Ida Roe, 60, a native of Lithuania, went to court to get her flist citizenship papers, but when it came time for her to get her final certificate she had become bestrides.

District Court rules were re-laxed to allow Judge Henry A. Schweinhaut to go to her home to conduct naturalization proceedings.

BAPTIST SPEAKER Harold Jackson of Portland. above, new director of Christian education in Oregon for the Baptist church, will speak at the quarterly business meeting and potluck supper at the First Bap-tist church at 6:30 tonight. He will also speak at a youth retreat Thursday or Friday.

Rev. Harold Jackson To Speak At Baptist Church

Speak At Baptist Church
The Rev. Harold Jackson of
Portland, new director of Christian education for the Baptist
church in Oregon, will speak at
the quarterly business meeting
and potluck supper at the First
Baptist church of Roseburg at
6:30 Wednesday.
The Rev. Mr. Jackson is known
as a good speaker who uses wit
and humor to great effect, said
the Rev. H. P. Sconce, local Baptist pastor. He will stay over
here for a youth retreat on Thursday or Friday.
The Rev. Mr. Sconce announced
that all heads of departments
will bring reports, and that important business will be transacted. The supper will feature
wild game and pumpkin pie.
