

**GIANT GOLD DECKS** stretch into the haze of distance at the big Dillard branch mill of the Roseburg Lumber company.

Approximately 30 million feet of lumber is contained in the logs in these decks. To quote the traditional newspaper comparison example, this represents enough lumber to furnish construction of 3,000 five-room homes, which, we may assume, could house an average of 12,000 people.

Extensive cold decking of logs at mill sites during summer months is a growing custom. The weather, normally inclement here in winter, makes logging difficult and un dependable; and the cost of building and maintaining all-season access roads is exorbitant and the practice is shunned except under the most favorable circumstances. other right wing board members who wanted to file the same charges.

PITTSBURGH, Nov. 5.—(AP)—President Albert J. Fitzgerald's order reading right wing leaders out of his United Electrical Workers union is being met today either with defiance or with silence.

The order, in the form of telegrams to individual officers, came yesterday as a result of the expulsion of the UE by the national CIO earlier this week at its convention in Cleveland.

The expulsion, on the grounds of left wingism, immediately put the long-standing left-right fight out in the open.

Officers of at least five big UE locals throughout the country have received telegrams from Fitzgerald telling they are no longer officers or members of the union.

Some, like Clyde J. Bowman, executive board member of 13,700-member local 601 at the Westinghouse Electric corp. in East Pittsburgh, have wired back defiant messages. Bowman, one of 24 officers "read out" at Pittsburgh, told Fitzgerald:

"Because you walked out of the CIO, I no longer recognize you as having any authority to tell me anything."

Others, like the 10 right wing-

ers tossed out at Westinghouse's turbine plant in Sharon, Pa., simply ignored the telegrams.

Unverified reports indicated all right wing UE officials have got Fitzgerald telegrams, which also are signed by Charles Newell, UE international representative.

PITTSBURGH, Nov. 5.—(AP)—The Jones & Laughlin Steel Corp. today said it will meet with CIO United Steelworkers representatives on Monday in "preliminary" talks toward ending the 37-day-old strike at the firm.

J. & L. Vice President Victor H. Lawrence will represent the firm. John Murray will be the union's chief negotiator.

## Community Chest Campaign Workers Lists Announced

Lions and Active clubs, Junior Chamber of Commerce, the Business and Professional Women and Junior Woman's clubs.

Each of the men's organizations has been assigned a zone in the central business district in the outlying areas, while the B. P. W. will solicit city and school district employees and those of Mercy hospital; the Junior Woman's club, county employees and those of the Roseburg Veterans hospital.

Lamka said he was "quite enthused" over the prospects for success of the chest drive this year, with so many organizations taking an active part in "putting it over."

The kick-off breakfast Monday morning will be keynoted with an address by Paul E. Geddes, lawyer and state representative.

The campaign representatives will then set out to make their initial contacts that morning.

On Roseburg store fronts today were spotches of white paint. These are to bear an Indian head insignia with a bright red feather.

The red feather is the symbol of the Community Chest drive. Lamka said the paint and materials for this design were donated by Hufham Sign shop.

David H. Hill, county community chest drive chairman, said today that cash donations have started to pour into the county chest coffers.

Both the city and the county chest drive starts Monday, Nov. 7 and will continue through the 13th. The goal of the county drive is \$7,638, Hill said.

Pulitzer prize-winner Larry Allen, recently stationed at Warsaw, Poland, told the group yesterday:

"If there is to be a war with Russia, I think it will come by the end of 1952."

"I have three reasons for thinking this," he said. "By that time, Russia will have a supply of atomic bombs. Secondly, the Russians feel that Americans are disunited during any presidential election year."

"Thirdly, the Russians believe that Marshall-plan aid will run dry about that time. They think we can't keep on pumping money into Europe. When our financial aid to European countries is at an end, it will be much easier for them to step in and take over."

Lee Hills of the Miami (Fla.) Herald was elected president of the APMEA yesterday. He succeeds William P. Stevens of the Minneapolis Tribune.

Officers were elected by the association's board of directors. L. R. Blanchard of the Gannett newspapers was elected vice president. He is a resident of Rochester, N. Y. James S. Pope of the Louisville Courier-Journal was elected secretary and Wallace Limoe of the Milwaukee Journal, treasurer.

### Canyonville Election Will Be Held Tuesday

Municipal election will be held in Canyonville Tuesday, Nov. 8, at the city hall. A new mayor, three new councilmen for two years, one new councilman for one year and city recorder and treasurer are to be chosen.

Candidates for the city council include John Hamlin, incumbent; Clifford Beals, George McClane, Sr., Clinton Atherton, C. F. Ferguson, Emmett Boyer and Bill Cox. Two candidates seeking the office of recorder are Mrs. Laura Goodell and H. H. Hask.

### Flood Victims Sought

CARACUS, Venezuela, Nov. 5.—(AP)—Homeless Venezuelans searched frantically today for members of their families missing since a flash flood swept through Caracas suburbs.

At least 20 persons were reported dead and authorities feared the toll from yesterday's flood might run much higher. The flood, the worst in Venezuela's capital in many years, caused damage estimated unofficially at \$10,000,000.

## 'China Challenge,' Sound Color Film, To Be Shown

"China Challenge," the sound-color documentary motion picture which graphically tells the story of China's physical and spiritual problems, will be shown Sunday, Nov. 6, 7:30 p.m. at First Christian church, E. Douglas & Kane Sts. This 40-minute film was photographed in natural color by Bob Pierce during seven months of travel across the length and breadth of ancient China. Rare and remarkable scenes of the life and habits of the people make it an unparalleled story in behalf of Oriental missions.

Much of the film centers about China's streets where the people are born, live and die. A sequence about China's blind children is especially moving as is the film's climax, telling the remarkable story of a mission for lepers on the outskirts of the city of Kunming.

"China Challenge" is undoubtedly the last authentic documentary to come out of that land during Communist domination. The picture is produced by Great Commission Films which is a unique organization of professional men skilled in the motion picture art, who have devoted their talents to telling the story
