

Electrical Union Split; Most Will Remain in CIO

PITTSBURGH, Nov. 9.—(AP)—The United Electrical workers, expelled from the CIO only last week for its leftwing policies, was threatened today with the immediate loss of more than 107,000 members.

Most of these a survey showed, intend to string along with the rightwing CIO.

At the same time the CIO announced that the new union of electrical workers—organized to supplant the UEV—had won its first employer recognition in a contract signed with two firms employing 1,075 workers at Yonkers, N. Y.

The survey covered scores of locals in 12 states—California, Illinois, Indiana, Iowa, Massachusetts, Minnesota, Missouri, New Jersey, New York, Ohio, Pennsylvania and West Virginia.

It showed that 107,482 UE members have voted to secede from the parent union or have otherwise indicated strongly they intend to do so in the less than a week since the UE was expelled by the National CIO for left wingism.

Most of those who have voted for secession have also announced their intention of going into the CIO. A few have made no statement of their intent. One small local joined the CIO-United Auto workers.

A total of 68,608 UE members in other locals have voted to stick by the parent organization or have announced that is their intention.

This total of 176,090 who have said what they intend to do compares with a total UE membership estimated at 400,000 to 450,000. Previous tests of strength in the locals and on the national convention floor indicate that about half the membership is left wing, half right wing.

Vote Fraud Convictions In Missouri Sustained

WASHINGTON, Nov. 9.—(AP)—The Supreme court Monday in effect upheld the vote fraud convictions of two election workers in the 1946 Missouri Democratic primary—the contest in which President Truman successfully fought the renomination bid of Rep. Roger C. Slaughter.

The court action consisted of an order refusing to review the cases of Morris Klein, a Democratic precinct captain in Kansas City, and by Harry Burke, former captain who was displaced by Klein. They were convicted on charges of returning illegal votes in the election.

Mr. Truman urged the nomination of Enos Axtell for the congressional seat held by Slaughter. Axtell won, but was defeated in the general election by Albert L. Reeves Jr., Republican.

The new owner took over Nov. 1.

Russians Claim Discoveries in Atomic Radiation

MOSCOW.—(AP)—A top Russian scientist reports the Soviet scientists in the past year have discovered hitherto unknown characteristics of radiation from atomic nuclei.

This was only one of a number of scientific discoveries claimed

for Russian physicists and astronomers by Sergei Vavilov, president of the Academy of Sciences of the U. S. S. R., in an article in Izvestia, the government newspaper.

The article was titled "Soviet Science on the Thirty-Second An-

niversary of the October Revolution."

Vavilov did not elaborate on the nature of characteristics of atomic radiation discovered.

The neck of a giraffe, although exceedingly long, contains only seven bones—the same number as are in the necks of most other mammals.
