

TURKEY TO TURKEY

Oregon Man To Take Bird To President Inonu Upon Acceptance Of His Offer

McMINNVILLE, Ore.—(AP)—A press agent's gag—sending a turkey to Turkey—worked out pretty well for the guy who thought it up. He's going, too.

Of course, he'll have to feed the bird and see that it arrives in championship condition, but with people who know about those things," said Gene Malecki.

Malecki, a Salem, Ore., resident, has promoted and managed a number of Oregon community festivals. He was named manager of the Pacific Coast turkey exhibit here. After sending a bean festival representative to Boston for a pot of baked beans, it was no trick to think of sending a turkey to Turkey.

President Ismet Inonu's secretary general, Cemil Yesil, said

the President would be pleased to receive the fowl. That pleased C. W. Norton of Portland, president of a poultry products firm. Norton bought Malecki a round-trip ticket to deliver the bird personally.

So, after Malecki supervises such things as judging a demonstration of dogs herding turkeys into a pen, the serving of turkey-burger to the exhibit crowds, the mailing of the champion dressed bird to President Truman and other birds to 48 governors, he'll herd the champion live bird into a special cage and take off Nov. 19 for Ankara via Istanbul.

He'll arrive there Nov. 23 and expects to be met by Ahmet Kaya, best man at Malecki's wedding when the two were Oregon State college students in 1946. Then he'll head for Ankara to deliver the bird and join the American colony's Thanksgiving celebration at the invitation of Ambassador George Wadsworth.

Along with the champion bird he'll take two dressed turkeys. One is for the secretary general and one for President Inonu.

"Just in case the President wants to keep the live one for a pot," he explained.

Will Boost Industry

The show will be held Nov. 15-18 and has drawn a large entry list. Among the visitors to the show will be Dr. W. A. Billings of the University of Minnesota, a nationally known figure in the turkey field.

As soon as the show is completed the winning entries will be prepared for shipment. With the dressed birds going to the White House and to the governors of the 48 states will be cranberries from Coquille, to provide the proper trimmings for the holiday meal.

Malecki said the widespread publicity given the local show was expected to boost the turkey industry in Oregon. Arrangements have been made, he said, for a radio broadcast from New York when he arrives there with the turkey for Turkey—and a tape recording of part of it will be used on the Voice of America broadcast.

HOW'S YOUR APPETITE?

VERBOORT, Nov. 10 —(AP)—This Dutch community's famed sausage festival will be held Sunday.

Some 1,500 visitors are expected for the sausage-and-sauerkraut meal which is cooked and served annually by the community to raise funds.

The sausage is smoked by all the farmers in the area, and their wives do the cooking.

Leader Of Lions International To Visit Roseburg

Walter C. Isner of Queenston, Ont., Canada, president of the International Association of Lions clubs, will pay an official visit to the Roseburg Lions club Saturday, Nov. 12. He will address a special meeting of the local Lions and Lady Lions at noon at the Hotel Umpqua.

Also invited to the meeting to greet the international president will be representatives of Lions clubs at Myrtle Creek, Riddle, Canyonville, Sutherlin and Drain, announced Dr. James E. Campbell, president of the Roseburg Lions.

Fisher was elected to his office by unanimous ballot at the 1949 International convention in New York City in July. He had previously served as third, second and first vice-president and as an international director.

Fisher has long been active in Lionism. His record dates back to 1933, when he joined the St. Catharines, Ont., club. He served as chairman of various committees, as a director and club president in 1941-42. He later filled the office of deputy district governor and in 1943-44 served concurrently in this office and as president of the International Association of Lions Clubs of Canada. In 1947 he represented Lions International at a special conference of non-governmental agencies called at Lake Success to formulate plans for the dissemination of educational material concerning the United Nations.

Fisher is secretary-treasurer of C. Howard Fisher & Sons Ltd., a private company which owns and operates the Dulverton Fruit Farm at Queenston. This farm, the property of the Fisher family for 67 years, is the oldest commercial peach orchard in that section of Canada.

He is a director of the Premier Trust company of Toronto, a former member of the Queenston school board, past vice-president of the Niagara Peninsula Fruit Growers association, and past director of the Ontario Fruit Growers association. He is also prominent in numerous community affairs and an active member of the United Church of Canada, having served as superintendent of the Sunday school 21 years.

Accompanied by his wife, Fisher will stop in Roseburg enroute from Eugene to Medford on a tour of the nation.

Civilian Agency Takes Control Of Military Planes

WASHINGTON —(AP)—A civilian government agency has taken over air control of military planes as a safety measure, based on the report that he had almost collided with a B-25 bomber over National airport here.

The Civil Aeronautics administration announced the new safety move, a short time after disclosure of the near-collision between an Eastern Airlines Constellation and an instrument-flying Air Force plane. The airliner was carrying 54 persons on a flight to Miami.

The CAA did not relate its announcement to the airliner-bomber incident. It said the new regulation resulted from a series of air safety discussions with Air Force and Navy officials which started several weeks ago.

There has been heavy pressure on civilian and military aviation authorities to take new measures toward greater safety in the air—particularly against air-to-air collisions. In the past 14 months, all fatalities suffered by passengers on U. S. airlines have resulted from aerial collisions.

National airport was the scene of a disastrous crash last Tuesday, involving an Eastern Airlines DC-4 and a Bolivian P-38 fighter. In which 55 persons lost their lives. In its statement, the CAA said the new move applies to fair weather a procedure previously restricted to bad days.

Big Deposits Gain Shown By U. S. National Bank

The United States National bank of Portland, in its Nov. 1 report to the controller of the currency, showed a gain of over 19 million dollars in deposits since the June 30 call date. Gains were also made in loans and discounts as well as in total resources.

Deposits now total \$525,219,116, a gain of \$19,041,021 since the June 30 report. Total deposits of the Roseburg branch are \$13,554,671.82, according to H. E. Schmeer, manager.

The latest loans and discounts figure of \$148,416,862 represents a gain of \$15,582,610 over the total at the time of the mid-year call. Total resources for the entire system now stand at \$562,754,873 as compared with \$541,154,804 four months ago.

Both the ruby and sapphire are an oxide of aluminum.

Russians Create Big River By Use Of Atomic Energy, Pro-Red Paper Reports

BERLIN, Nov. 10. — (AP) — The Russian-licensed newspaper Nact Express says Soviet use of atomic energy to blast an entire mountain has opened the way for a man-made river bigger than the English channel.

A power plant 800 times the capacity of Hoover (Boulder) dam will be built in southwest Russia, to turn a desert into 75,000 irrigated acres for cotton planting, the newspaper said.

The Nact Express is communist-controlled but has no official standing with the Russian occupation in Germany. Its atomic story apparently had the approval of the Russians, but not necessarily their sponsorship. They use the Red army's Taegliche Rundschau for official announcements.

Nact Express quoted an engineer as saying atomic explosions were used to drive a canal through the Turgai mountains between the Ural mountains and Kirgiz range.

This was done to make possible the construction of two dams to divert the waters of the Ob and Irtysh rivers toward the south. They empty into the Arctic ocean.

To receive the diverted water, the newspaper said, a channel 580 miles long and emptying into the Aral sea will be built. It will be deep enough for seagoing vessels. Another channel will be dug to connect the Aral with the Caspian sea.

Mix mashed turnips and carrots together for a flavor change; season with salt, freshly ground pepper, celery salt and a dash of nutmeg.

Board Rules On N. Coast Greyhound Line Dispute

SEATTLE —(AP)— The findings of a three-man arbitration board, studying the dispute of the North Coast Greyhound lines which resulted in a lengthy strike this summer, were announced here.

The board ruled that limited and express runs shall be paid on a mileage basis for the driver and others shall be paid on an hourly basis. The mileage vs. hourly-pay issue was one of the major differences in the dispute.

On the issue of pay and working conditions for "extra-board" drivers, the board directed a continuation of the mileage method of computing wage and working conditions. One arbitrator dissented on these two issues.

Other findings provided for modifications of vacation provisions in the maintenance department and set the term of the new contract to expire April 30, 1951.

The findings of the board are binding on both the union and the company.

TUNNEL DEDICATED
EVANSTON, Wyo., Nov. 10 —(AP)—A diesel-powered Union Pacific train split a canvas and paper shield Wednesday to mark the formal dedication of the railroad's new Altamont tunnel in southern Wyoming.

Completion of the 1,705-foot bore gives the Union Pacific 1,026 miles of continuous double track, from Omaha, Nebr., west to Salt Lake City.
