

"PLUMB TIRED" OF LEANING—Robert A. Iig, Chicago manufacturer, bids goodby to his old home, which is a replica of Italy's famed leaning tower of Pisa. Iig is moving to California, where he hopes to be able to live on the level.

West Germany Gets Concessions From Big Three

FRANKFURT, Germany, —(AP)—West German Chancellor Konrad Adenauer has announced that Britain, France and the United States have agreed to slow down the dismantling of German industries.

His announcement came as he began negotiations with the Western high commissioners in the hope of relaxing occupation restrictions on Germany.

In a foreign policy speech to the West German parliament, broadcast by the Frankfurt radio, Adenauer made this report on the results of the Paris foreign Minister's conference:

- 1) The United States, France and Britain have agreed to invite West Germany to "many international organizations."
- 2) The Allies are considering how to alleviate the "consequences" of the present state of war between Germany and the Western Governments.
- 3) The Allies have agreed to allow Germany to build a bigger and faster Merchant Shipping fleet.
- 4) The Allies have agreed to allow Germany to set up trade consulates in foreign countries.
- 5) The Western powers have agreed to a certain relaxation of dismantling of former German War industry.

In exchange for Allied concessions, Adenauer said that the German government is ready to (1) Enter the Ruhr authority and acknowledge the Ruhr, statute that will keep control of the Ruhr's big Steel and Coal industries.

- 2) Cooperate closely with the Allied security board.
- 3) Allow foreign investments in German industrial enterprises. He did not say what percentage of foreign interest the German government would permit.
- 4) To take part "as soon as possible" in the economic union of the Benelux countries.

Plywood is used extensively in the construction of motion picture sets.

NEW RAKE FOR OLD LEAVES—This mechanical rake leaves little to be desired when it comes to that yearly chore of clearing away mountains of fallen leaves. Invented by Harry Clements of LaPorte, Ind., the machine scoops up not only leaves, but sticks, stones, bottles and bones as well. The machine will sell for \$3200.

Yugoslavia Raps Russia, Shies At Peace Formula

LAKE SUCCESS —(AP)—Yugoslavia has again blasted at Russia for appearing before the United Nations as a champion on peace while exerting "aggressive pressure" in efforts to oust Premier Marshal Tito.

Cugoslav delegate Djilas gave his country's views to the general assembly's 59-nation political committee. He devoted most of

his long speech to an attack on Russia but he also assailed the western powers for what he called war propaganda.

Djilas told the committee Yugoslavia could not completely support either the 12-point peace formula of the western powers or the 3-point Soviet plan for a Big Five peace pact.

Djilas reviewed previous charges that Russia is using economic, political and military pressure to bring Yugoslavia back under the domination of the Cominform. He referred to recent reported troop demonstrations in Hungary and other

Soviet satellite countries on Yugoslavia's borders.

"There is something monstrous in this hypocrisy," Djilas said. "Under the cloak of peace propaganda actually aggressive pressure is being exercised against a small country."

While attacking Russia, Djilas contended his country had no ideological war with Russia. Their differences, he said, were based on Yugoslavia's desire to remain Communist but independent of Moscow.

"The problem of peace," he said, "lies in the struggle against aggressive policy and aggressive designs and methods, and not in various ideologies or social orders."

The political committee has before it divergent American and Soviet proposals on the subject of world peace.

Funds Shift Ups Newspaper Ads

PORTLAND —(AP)—Manufacturers here were told that newspapers are gaining national advertising because sales promotion funds are being shifted.

Harold S. Barnes, New York City, said makers of national brand merchandise are re-evaluating advertising mediums. "In the past three years, be-

cause of rising costs and increasing consumer resistance to high prices, advertisers generally have been questioning their past and present advertising policies more than they ever have before," he said. "In that period, they have found that newspapers enable them to cover their best markets more thoroughly and with less wastage in the poor markets."

Barnes is director of the bureau of advertising of the American Newspaper Publishers' association.
