This machine receives the powdered material from the mixer and converts it into a steady popping stream of pellets, which are sacked for the trade at the rate of 13 or 14 tons per shift.—(By Paul Jenkins).

### U. S. Admits Arms Aid To Europe Against Soviets

**LAKE SUCCESS, Nov. 19—(AP)**—The United States today it is helping Western European countries re-arm because they fear the intentions of the Soviet Union.

Assistant Secretary of State John D. Hickerson spoke out bluntly in debate on a proposed world census of ordinary (non-atomic) arms in the U.N. assembly's special political committee.

He replied to Soviet charges that the U.S. opposes extending the census to atomic arms, as proposed by Russia, because it is preparing itself and Western Europe for a new war instead of for disarmament.

"The nations of Western Europe are not arming themselves because they are opposed to disarmament," he told the committee.

"The United States is not assisting them in their efforts because the United States is opposed to disarmament."

"They are rearming themselves, and the United States is helping them to do so, because they fear the intentions of the Soviet government."

Yesterday the United Nations general assembly beat down Russian opposition once again and approved an arms embargo against Greece's Cominform neighbors.

### Baruch To Leave Fortune To Aid Physical Medicine

**NEW YORK.**—Elder Statesman Bernard M. Baruch plans to leave his fortune to promote his pet project—physical medicine.

"It's a field very close to my heart," he told an interviewer. "I can't think of anything better to do with my money."

But he added that it's nobody's business how much money he has to promote his project with a smile.

"It's much smaller than you think. I've spent a lot." The 79-year-old philanthropist made millions in his day as a Wall street speculator and mine developer.

But he's already given a lot of it away for physical medicine—a field of treatment which uses light, heat, cold, massage, water, electricity, occupation work-exercise, muscular manipulation and the like to diagnose and treat disease.

In 1942 he put up more than \$1,100,000 for physical medicine work, especially among disabled veterans and other handicapped people.

**"NEIGH, NEIGH"** **SPOKANE.**—(AP)—"Women in odd shape, in dire distress." That was a hurried telephone report to Police Captain John Reilly. Sirens on police car and an emergency ambulance screamed to a downtown hotel. The report was closed with one word: "Nightmare."
