K D N D

DIAL-LOG

Here's a special radio release from Mutual-Don Lee publicity—Musicians in Russ Morgan's orchestra on KHJ are requested to keep both feet on the floor while playing, and the drummer is asked to refrain from chewing gum. Thought we'd pass it along.

Here's our most prized fan letter to date:
"I'm typing this note with some hesitation, but I think a compliment is due our fine station, Fan letters really aren't in my line. But the changes you've made surely are fine. A favorite program is 'Linger Awhile.' I enjoy the friendly chatter of Carol and Lyle. The new 'Phone Fun' is an A-1 show; Even the commercials have a new glow. To the new announcers—here's a bouquet. Hope very sincerely you're here to stay! Can't figure out yet, how we earned their fine voices. My hat's off to the one who made these grand choices. The changes you've made cost this family some money. In this day and age, that really ain't funny! Cause, Lizzie, (our radio) three tubes did she burst! Right in the middle of 'Ladies First.' The extra portable was put into play. I went right on listening without delay. Your efforts are appreciated—don't think they are not. 1940 is now my favorite listening spot! P. S. I have a request to make of you yet—When should we buy a television set?"

An artist who hates himself because he is successful... a crooked publisher... a beautiful housekeeper, and, of course, George Valentine are the important characters for tonight's mystery of "Sweet Poison" on "Let George Do It" at eight. A new adventure, titled "Bury Your Dead, Arizona," will start to be dramatized on "I Love a Mystery" tonight at 10:30.

Bang's Disease Now Decreasing In Oregon Areas

PORTLAND —(P)—The Bang's disease problem in Oregon dairy herds is lessening.

That was the report of Dr. Charles Haynes, state veterinarian, who said he was "proud of the way we have cleaned up the situation in Tillamook county."

Haynes said Tillamook dairymen have killed 52 cattle recently because of the infection, and he predicted that within two years the county would be accredited as free from the disease.

Sauvies Island farmers have promised to cooperate in a program to clean out infected herds there, Haynes added.

He called upon dairymen to raise their own helpers, not buy them, as a means of controlling not only Bang's disease, but also mastitis and tuberculosis.

"Too often when they buy cattle," he explained, "they buy a cow that has had a negative report on a test but which may be from an infected herd. It may have been exposed to the infection."

Haynes spoke to a milk sanitation seminar attended by some 70 Oregon and Washington health officers. They agreed to work for better milk, through elimination of infected herds and better dairy sanitation.

Czechs Send 35 More To Prison

PRAGUE, Czechoslovakia. —(P)—A Prague state court announced the smashing of a big spy ring today as it sent 35 Czechs to prison for sentences ranging from life to one year.

They were convicted of aiming to overthrow the Communist government.

The group included two former members of the Czechoslovak security police. Three of the accused were women.

The court charged them with spying for an unnamed western power, with the goal of trying to overthrow the Czech government.

The trial, which lasted eight days, was one of a series of treason trials going on virtually non-stop in Czechoslovak courts. Most of them are held in secret.

Indications that more espionage arrests and trials were contemplated appeared in a special security police broadcast, urging greater vigilance against the "aims of the rotten western reactionary regime which sends spies and diversionist agents in to our country."

Girl Is Charged With Death Of Boy Friend

DERRYVILLE, Va. —(P)—A pretty Washington art student, 19-year-old Theresa Koenig is free on \$1,000 bond for her appearance in court here Nov. 23, on a charge of manslaughter in connection with the death Friday of her boy friend.

The body of Charles Kenneth Elyett, 22, was found slumped in his car in Huyett woods, near the West Virginia border, yesterday after Miss Koenig called the sheriff's office shortly before dawn and reported that she had "just killed a man."

Miss Koenig told officers Elyett sought to force his attentions on her and then threatened to "blow us both up" with dynamite he had in the car. Authorities found two sticks of dynamite, wired to be set off, and two pistols.

In a struggle which ensued, Miss Koenig told officers, she grabbed a .38 pistol Elyett was wearing in a holster and shot him in the abdomen. She then ran barefooted in the cold to a nearby farm house and called the authorities.

Man Who Spotted Stroble Once Turned Down As Cop

LOS ANGELES —(P)—The man who spotted Fred Stroble—Laundryman William Miller—once was turned down for a police job. But he may get another chance.

Miller, who found in a downtown bar the man charged with murdering Linda Glucoft, was called to Mayor Fletcher Bowron's office for a hearty handshake yesterday. Miller casually mentioned that three years ago he flunked the police examination.

Police Chief William A. Worton, who was present, spoke up: "Come in and see me sometime." Miller said he'd think it over.

Skipper Of Ill-Fated Vessel Loses License

OTTAWA, Nov. 21.—(P)—Justice R. L. Kellock today ordered suspension for one year of the license of Capt. William Taylor of Sarnia, Ont., master of the ill-fated cruise ship Noronic.

A 99-page report on the disaster has been delivered to transport minister. Lionel Chevrier for presentation to the House of Commons later today. The Noronic burned at her pier in Toronto Sept. 17, with a loss of 119 lives.

Party Rooms Slated For Portland High Schools

PORTLAND —(P)—Portland high schools are going to have social directors soon—and recreation rooms where the students can party.

So decided the school board, endorsing a proposal to School Supt. Paul A. Rehms.

The social program was drafted in an attempt to provide plenty of recreation in place of the banned fraternities and sororities. The fraternity members had argued that they had no place to turn for social activities except to the illegal organizations.

The school board voted two weeks ago to enforce the state law prohibiting secret organizations in high schools.

Chair Should Fit To Prevent Ills, Doctor Declares

By HOWARD W. BLAKESLEE
Associated Press Science Editor
Cincinnati. —(P)— This is about sitting down while you work.

If you want your brain to stay clear, you need a personal chair, the Southern Medical association was told.

"Chairs," said Dr. J. R. Garner, Atlanta, "should be as personal as your clothing."

They fit for proper sitting. And if you don't sit right, Dr. Garner said, some surprising things—mental, physical and psychological—happen.

In this personal chair your rear will extend out back a bit, to prevent coccyxitis. This refers to your coccyx, a pair of bones, like stubby stumps, just at the base of your spine. They aren't real sitting bones, but lots of people use them for that, said Dr. Garner. This puts an extra strain on the end of the spine. A properly designed chair bottom will also do the work of the rear overhang.

The chair back needs a slightly curving area to press forward into the curve of your spine. Keeping that curve in position tends to reduce pot-shaped corporalities.

The chair seat should not be long enough to press against the fold-back of your knees. That puts the feet to sleep.

Your blood pressure goes up, said Dr. Garner, when you sit with the familiar forward slouch.

Dr. Garner cites some serious deformations that sometimes come from prolonged improper posture in sedentary work.

You know about neuritis and psychoses, Dr. Garner says that now we are also getting posturoses.

Sweetland States Morse Is Through

KLAMATH FALLS. —(P)— Monroe Sweetland, Oregon democratic national committeeman, said the split between Oregon liberals and Senator Wayne Morse is complete.

Morse, a republican, had liberal backing when he was elected to Congress six years ago but may not have it in 1950.

The final straw, Sweetland said, came last Thursday when the senator told the conservative Oregon Farm Bureau federation at La Grande he was standing with Governor Douglas McKay and the GOP for the 1950 elections.

"Any hope Oregon liberals had," Sweetland declared, "that Morse would campaign in 1950 as an independent was wiped out in that statement."

"The deal between Morse and McKay is clear."

Sweetland declared Morse was using his "perennial political device" of talking independent between elections, then using his independent record to help elect "any reactionary with the GOP label" when election time comes.

For ten years Fred Nichols, Amboy, Wash., has made a practice of keeping his jack on the car floor, because he got tired of having to delve through the trunk when he wanted it.

Then his jeep overturned on a country road, pinning him below.

He couldn't make himself heard or get out. But he suddenly remembered his jack; felt around until he found it; then jacked the jeep up far enough to crawl to safety.

FANCY DAIRIES COSTLY

PORTLAND, —(P)—Dairies may be getting too fancy for the consumers' pocketbooks, an Oregon State college expert suggested.

"With building costs going up, are some of the present requirements necessary?" P. M. Brandt of the division of animal industries asked a seminar of health officers here.

Unnecessary construction costs are sure to be felt in an increased price of milk," Brandt said. He said Oregon state is studying the actual necessities in grade A dairies.

CHANGE OF HOURS
