**KIDNAPED CHILD RESCUED**—Karl Koehenmeister comforts his daughter, Karen, at police headquarters in Detroit, Mich., after the 7-year-old child was rescued from a kidnaper's car following an 80-mile-an-hour chase by police. The alleged kidnaper, William B. Mabrey, 35, jumped the curb and abandoned the car, but was arrested less than an hour later. He will be charged with kidnaping and attempting to take indecent liberties.

### 4 Nations Agree Not To Explore Antarctic In '50

WASHINGTON.—(AP)—The United States has lined up with Argentina, Britain and Chile in declaring its intention not to send any warships to the Antarctic during the 1949-50 exploration season.

In fact, the State department announcement said that the United States does not intend to send any vessels at all to the Antarctic.

Early in the fall Russia sent a three-ship "fishing expedition" into Antarctic waters and Moscow reports at the time said there were some scientists aboard.

There has been some talk here earlier this year of a new American expedition to Antarctica under the leadership of Admiral Richard E. Byrd but this never materialized.

Today's announcement by the State department said the U.S. government is pleased to learn that Argentina, Britain and Chile have agreed "they foresee no need to send warships south of latitude 60 degrees during the 1949-50 Antarctic season, apart of course from movements such as have been customary for a number of years."

There have been fears here from time to time that trouble might break out among war vessels of those three countries over conflicting Antarctic claims—the United States was not a party to their agreement and so took its own position independently.

### Oregon Grown Turkey Brings \$24 A Pound

SALT LAKE CITY.—(AP)—An Oregon grown turkey sold here today for \$24 a pound. The total of \$450 for the 18 3-4 pound hen was paid for the grand champion entry in the dressed hen division of the Utah turkey show.

Don Heinz of North Salem, Ore., entered the high-priced prize winner. It was purchased by the Newhouse hotel.

The grand champion tom went for \$10 per pound—a total of \$330 for the 33-pound bird—to Hotel Utah. It was grown by Doyce Oldroyd of Fountain Green, Utah.

Auctioning of the prize birds featured the concluding day of the show.

In the live bird division, grand champion prizes in both the tom and hen divisions went to the Arnett Turkey farm of Albany, Ore.

### Dog Companion Is First Thought Of Injured Man

PHILADELPHIA.—(AP)—Leo Ferguson, 60-year-old barge watchman, has a faithful companion during his long lonely vigils through the night.

Last night both Ferguson and his comrade of the dark—a small black and white Terrier—had trouble.

The watchman, his dog in his arms, slipped and plunged into the Delaware river as he started to board the barge.

His cries for help brought Patrolmen George Michaels and Mario Nafre to the water's edge. There, they said, they found Ferguson, his head bleeding from a gash, treading water and holding the dog on his shoulders.

They tossed him a life ring and pulled him to the pier to lift him out.

But Ferguson resisted, protesting "no, no, the dog first."

So the officers took the terrier to safety and then returned for the watchman.

At the hospital, where Ferguson was taken for treatment, he

### Veteran Gervais Mayor Passes Away At 71

SALEM, Nov. 22.—(AP)—Gus Jerome Molsan, 71, mayor of Gervais for 32 years, died in a hospital here Sunday.

He had served the city of Gervais for 42 years and took pride in the fact that he helped bring electricity and a water system to the community 10 miles north of here.

He had been bedfast for more than a year and retired from his job as mayor last January, saying it was time a younger man took over the responsibility.

### New Microwave Network To Connect Bonneville

PORTLAND, Nov. 22.—(AP)—A new communications network—microwave radio—will link Bonneville Power administration's J. D. Ross substation at Vancouver, Wash., to Snohomish, Wash., within three or four months.

The new system, which transmits both sound and facsimile material, was demonstrated to the Bonneville Advisory council

here. The council members whispered as they stood in the radio beam; their voices boomed back to a microphone.

Six towers, which transmit the signals, will be constructed at the Ross substation, Rainier, Chehalis, Olympic mountains and Snohomish.

Lyman R. Spaulding, Bonneville communications engineer, said the microwave radio would provide much cheaper service than long-distance telephone.

### 20TH DIPHTHERIA CASE MEDFORD

MEDFORD.—(AP)—This area's 20th diphtheria case since early October was reported by the county Health Officer, Dr. A. Erin Merkel.

Stricken was a 36-year-old Medford man. The outbreak has caused five deaths.

### Conductor Shoots Three Negroes In Streetcar Ban

BIRMINGHAM, Ala., Nov. 22.—(AP)—A streetcar conductor shot three Negro passengers Sunday after one of them took a seat in the section reserved for whites police reported.

Detective R. A. MacMurdo said two of the men were wounded accidentally. The third, Sammy Lee Williams, 34, suffered a serious wound of the abdomen.

Conductor M. A. Weeks protested when Williams sat down in the white section, the detective said. An altercation and the shooting followed.

Weeks was not arrested. Detective MacMurdo said he is still investigating the incident. Streetcar conductors are allowed to carry weapons for their protection.

### Woman's Traffic Death Laid To Nap At Wheel

KLAMATH FALLS, Nov. 22.—(AP)—A young Klamath Falls woman, mother of three, was killed instantly Monday morning when a car crashed into a bridge abutment and went into an irrigation canal half a mile south of Tulelake.

The woman was Mrs. Harriet Jana Groves, 31. She was alone in the car.

Tulelake police chief Pete Pedersen said investigation showed the woman probably went to sleep at the wheel.

### Chicago Editor Named President Of Honorary

DALLAS.—(AP)—Carl R. Kesler, state editor of the Chicago Daily News, was elected president of Sigma Delta Chi, professional journalism fraternity.

Grove Patterson, editor in chief, Toldeo Blade, was named honorary president at the four-day convention.

Two publishers and a journalism school director were elected fellows in recognition of outstanding service to the journalism profession.

They were Dr. Frank Luther Mott, director of the University of Missouri school of journalism; James G. Stahman, president and publisher of the Nashville (Tenn.) Banner; and Palmer Hoyt, editor and publisher of the Denver Post.

Boulder, Colo., owns a glacier, from which it gets its water supply.

These folks mean business for the West... Pacific Telephone people receive pay adding up to \$18,000,000 a month.

## Telephone paychecks also come to you

**1. Timber... paper... copper**—we have to buy many things to build and run the telephone system. Last year Western Electric, our principal manufacturer and supplier, bought over 20 million dollars worth of materials in the West. More than half of each dollar we take in goes for employees. Most of it is spent and goes into circulation where they work and live.

**2. More than 80,000** of those whose savings built the business... who own telephone stock... live in the West. In return for the use of their money, a few pennies of each telephone dollar go to them. And as they spend it, they also add to Western prosperity. It would probably be hard to find anyone who does not in some way benefit from the money we spend.

**3. When you add it all up**, you find the money you spend for service comes back, in large part, to you. And your telephone dollars are buying more service than ever. Today you can call more of the people you want to call... more can call you. And your telephone still does its jobs for only a few pennies a call.

Your telephone is one of today's best bargains
