"UNUSUAL" WEATHER

By CHARLES V. STANTON

The Central Willamette valley has been getting a taste of smog-the kind of smog which, with only little addition, could develop into one of those killing pollutions encountered recently in some of the nation's industrial areas.

It was our first experience with such a condition as we drove to Portland last week. Intermingled with the fog was smoke from many sources. Fumes were noticeable in areas having industrial plants.

Weather experts explained that the blanket collected because of a lack of air movement, with accompanying pressures, causing the fog to hug the ground. It was easy to understand how, with the addition of concentrated poisonous fumes from industrial plants, fatalities could result. The smog indirectly did cause some deaths, because of traffic accidents, but probably there were fewer motor vehicle accidents than if there had been no fog. Recognizing the extreme hazard, motorists, for the most part, were driving with extraordinary caution.

Naturally, the Willamette valley smog was not overly dangerous, because the area has no smelters or other industrial plants pouring large volumes of poisonous fumes into the atmosphere. In places, however, the concentration of smoke was sufficient to be noticeable.

Such conditions are rare, but it should be realized that with further industrial expansion the danger of atmospheric pollution will become increasingly possible.

We pollute our waters; we destroy our watersheds; we tain! Lookingglass valley was days? Wonder how them was strip away our forest cover; we erode our lands, and we moved right over into eastern the days is coming along? We pollute our waters; we destroy our watersheds; we even pollute the air we breathe. And yet we brag of our Oregon in 1936. If that is news to Haven't heard lately. Martha Ferintelligence and degree of civilization.

With our intelligence and scientific knowledge, we can eliminate all these pollutions and wastes. It is interesting plished that remarkable feat was and then down the east coast to note that the chemicals being poured into our streams, H. L. Davis; was given the Pul- to Virginia. However, the author if recovered by proven methods, can be converted into profitable products. By saving our watershed, we improve income from agricultural lands. By properly managing our forests, we stabilize local economies and produce more employment. Through conservation methods of land utilization, we vastly improve farm income. Yet we permit waste and pollution to continue. Are we as intelligent as we

Maybe this reversal of weather conditions is due to the fact that we have had such a large influx of settlers from in Polk county for the purpose wide area of country." Then in California, bringing their "unusual" weather. But normally we expect fog along the coast and better visibility inland. Instead, during the past week, a large part of the Willamette valley had its smog blanket while the coastal area basked in summer-like weather.

Travelling the coast route we found the most ideal conditions we have experienced-bright sunshine, clear skies, calm seas, high temperatures.

Resort towns Sunday were enjoying the kind of crowds they normally anticipate only during the peak of the sum- Mrs. S. Wilhelmy mer tourist season. Every scenic and resort attraction was jam-packed. Restaurants, cafes, hotels and camp grounds were crowded. "No vacancy" signs were posted for the first time since Labor Day.

Every fishing hole along the coastal streams was crowded with anglers-all complaining about low water. Lakes and bays were dotted with trollers, picking up the tail end

WASHINGTON, -CP)-The ag-WASHINGTON, —(P)—The agriculture department has approved a proposal to grant potation growers in the Idaho-eastern Oregon commercial area greater leeway in disposing of lower grade potatoes.

Interstate and foreign shipments from this area are controlled under a federal marketing program designed to help stabilize grower prices by keeping low quality and small potatoes off the market.

The department approved amountments to the program which would permit export of some grades and sizes which at present are not permitted to be sold domestically or abroad, and to permit local sales of lower grades under certain conditions. The proposed changes must be approved by at least two-thirds of the area's growers voting in the area's growers voting in the area's growers voting in the proposal to grades and sizes which at present are not permitted to be sold domestically or abroad, and to permit local sales of lower grades under certain conditions. Burglaries At Eugene Double During Present Year

EUGENE, —(IP)—The number of burglaries committed in this city have doubled this year.

Recent burglaries have only accented what the police have known for some time—that there has been a definite postwar migration of professional criminals to these fast-growing comparatively, wealthy Pacific coast tates. The extent to which they have found Eugene an inviting field for their talents is shown

(Continued from Page One) and up and up and never would go down.

MELL, I can remember, also the decade of the 1930s. Something had SLIPPED. Prosperity had stubbed its toe.

message to townspeople. The club is headed by Chairman Leo Sevy.
Roseburg Jaycees will hold their annual distinguished service award banquet at Kennedy's Dutch Mill Jan. 16, at which time the Junior first citizen will be announced. Also, the Jaycee key man award and plaque to the outstanding Jaycee of the year will be presented. New officers, to be nominated Monday, Nov. 28, will be installed at the annual first citizen's banquet. Charlie Hart is chairman in charge of the affair. Other Plans Made
Roseburg Jaycees will launch a campaign to start Jaycee units at Coquille, North Bend and Coos Bay, Scott revealed. Irv Pugh heads the extension committee, which group will do the groundwork in preparation for organizing new Jaycee cells.
Tentative Christmas plans by Roseburg Jaycees will include a repetition of last year's "Hello, Santa" project. Children having last-minute gift wishes may call Santa and inform him of the fact, according to Scott.
Other Christmas activities again to be sponsored by Jaycees include the erection of a Christmas tree in a prominent place in town and lighting of the cross on Mt. Nebo.
Jaycee Don Forbes revealed plans to hold the state Jaycee will have ever held the state meet here are nearly completed. The first time Roseburg Jaycees will have ever held the state meet here. Forbes said an attendance of from 100 to 150 is expected from ever the state N the clear, vivid light of hindsight, we could see that the prosperity of the 1920s hadn't been as SOUND as we thought it was. We discovered that a lot of what we had mought was true will have ever held the state meet here. Forbes said an attendance of from 100 to 150 is expected from over the state.

Also slated by Jaycees is a dance featuring "The Dixieland Bob Cats," headed by Nappy Lamare. The dance will be held at Kennedy's Sunday, Dec. 4. Admission is \$1 each, plus 20 percent tax. Lamare's is reported to be a "big name" outfit that provides "real gone" entertainment. Wives of Jaycees will be feted at a Christmas party Dec. 19, at a place and time to be announced later. President Scott said. prosperity had really been SPECULATION—which is a pohad really been

never will be.

1929 taught us that.

WORKING, producing, MAK-ING THINGS FOR PEOPLE

THAT is prosperity.

WE can speculate on the stock markets. We can gamble on the commodity markets. We can vote ourselves rich. We can pension ourselves off. We can keep on spending recklessly while we PILE UP DEBT without making any effort to pay it off. But that isn't prosperity.

SCOTTISH STREAK
BALLSTON SPA, N. Y. —(P)—
Dr. Harry E. Hansen, a veterinarian, got a call from a down-town drugstore. A farmer there wanted him to look at a sick cow.
Dr. Hansen picked up the farmer and drove him through winding, country roads.
As the pair pulled up to the farmer's house, the farmer opened the car door and said:
"You can let me out here, Doc, I haven't got a sick cow. You see, you charge only \$3 for a visit while a taxl would have cost me \$5." We can kid ourselves about it while it is going on (just as we
