#### Eggs Prices Continue On Downward Trend

PORTLAND, Nov. 30. — (IP) —
Figg prices were slashed again today, with large eggs taking a 4cent tumble. Small and medium
eggs were down 2 cents a dozen.
Dealers ascribed the dron, in
part, to burdensome supplies of
large grades. The fall here followed yesterday's 5 to 6-cent cut
on all grades at Seattle.

So far this week large eggs
have dropped 8 cents a dozen and
small and medium 3 cents.

As the market continued unsettled, dealers were buying only
for immediate needs.

Today's prices to retailers are:

# Union Wooed By Red Propaganda

LONDON, Nov. 30 (25) Moscow once again is wooing Europe's Catholic labor unions to form a solld "front" with Communist workers in what may become a new campaign aimed at disrupting the west's recovery program.

disrupting the west's recovery program.

The Russian led Cominform (Communist International Information bureau) in a resolution published yesterday after a secret meeting this month in Hungary urged Communist workers:

"In the struggle for working class unity special attention should be given to masses of Catholic workers and working people and their organizations."

This call coincided with a bitter rift which has arisen here in the organizational meeting of the anti-Communist free world labor confederation over failure by its credentials committee to invite Catholic unions from Belgium, The Netherlands, Switzerland, Denmark and Luxembourg.

Observers here felt that the Cominform may have been well aware of this snub and had decided to take advantage of it.

The Cominform resolution was also seen by most observers as an attempt to counteract the recent Vatican decree excommunicating Catholics who militantly

tions are not an obstacle to working class unity, particularly when this unity is needed to save peace."

The observers noted that it is a well-known Communist tactic, particularly where they are in the minority, to try to create a "front" consisting of all parties on popular issues. They then see to it that they are in control of key positions in the front from which they can direct their campaign along Moscow-directed lines.

And again she would ask:
"Mummy, where's my feet?"
