Property Owner Not Restricted By New FHA Rule

WASHINGTON—(AP)—The FH says the new anti-discrimination policy on government financing of homes will not bar a property owner from picking the tenant he wants.

Nor will it attempt to control the owner in selecting a buyer if he chooses to sell the property. The new rule is expected to go into effect in about 60 days. It will ban federal home mortgage guarantees where written restrictive covenants are placed on record after the effective date.

The policy was announced last Friday by Solicitor General Philip B. Perlman, with the authorization of President Truman. Confusion arose over how it will operate.

In an attempt to clarify the situation, FHA Commissioner Franklin D. Richards sent explanatory statements to FHA field offices for their guidance.

The aim, Richards said, is to bring the government's policies in line with Supreme court decisions that, although individuals may be free to impose or comply with restrictive racial covenants, government support of covenants is contrary to the public policy and they cannot be enforced in court.

Patrol System In All Oregon Schools, Newbury's Idea

SALEM—(AP)—The schoolboy patrol system should be extended to all schools in the state, secretary of state Newbury says.

Instead of being confined to traffic control, the boy officers should be given more duties, he said. These could include supervising fire drills, preventing abuses on playgrounds, keeping order in loading and unloading school buses, policing buildings and grounds, and operating special foot patrols at rural schools.

Newbury said the new system will be coordinated by State Police Capt. Walter Lansing, who heads Newbury's Traffic Safety division. Lansing will work with Newbury, Department of Education, State Highway commission, State Police and the State Fire marshal.

New manuals outlining the plan are being sent to schools and police officers.
