deafness

Nearly Cost Me MY JOB! ...until I discovered this New "Invisible Electronic Ear!"

Nothing can ruin a man's business chances more surely than loss of hearing. People get the idea that you are growing stupid, slow-witted and old—ready for "the shelf."

But I stubbornly fought the idea of wearing a hearing aid. I rebelled against that unsightly "button in the ear"—against dangling wires and clumsy battery packs.

Then a little book fell into my hands and changed my whole life overnight. The book told how the new Beltone "Invisible Electronic Ear" actually hides deafness—re-

captures hearing a totally different way thru the miracle of modern electronics. And NO BUTTON IN THE EAR!

Today I can hear clearly again—even faintest whispers. No more office-mistakes and misunderstandings because I "couldn't hear"! Thanks to the new Beltone, I can again hold my own with anyone—in business or anywhere else!

If you are hard-of-hearing, don't resign yourself to the handicaps that deafness brings. Come in, phone or send for the valuable FREE book on the new Beltone "Invisible Electronic Ear." No cost, no obligation. Do it now!
