**Rock-mud-sand: It's all the same to a "Caterpillar's" tracks**

says Harry Sanford  
your INTERSTATE man

"Caterpillar" tracks are built to last! Years of experience in building track-type machines have developed a track construction that's best suited for long life in the tough rock of the Northwest. Track pins and roller rims are "hi-electro" armored.

Those same tracks convert diesel power to drawbar pull without wasteful slippage. "Caterpillar" gets work done, even under extreme conditions. Write or call us for a free catalog today.
