Dixiecrats Warn Against Broader Civil Rights Bill

By MARVIN L. ARROWSMITH

WASHINGTON — (AP) — Two Dixie lawmakers warn that the Truman administration had better refrain from broadening new civil rights housing regulations if it wants Congress to approve more home-building legislation. At the same time, a high government official told a reporter that the administration "will take full advantage of its executive powers" to achieve the objectives of President Truman's hotly disputed civil rights program.

"But," this official added, "we are going to be very careful not to restrict the selection of tenants, which require prior authorization by Congress." He asked not to be identified by name.

The go-slow advice came from Senators Sparkman (D-Ala) and Johnston (D-SC). They spoke out after two government agencies announced that new rules, curbing the use of agreements which restrict the selection of tenants, will go into effect Feb. 15.

The agreement, or covenants, are those which bar sale or rent of dwellings to persons of certain races or creeds.

The federal housing administration said it will deny home loan insurance, or mortgage financing, in any case where a covenant is filed in the public records after Feb. 15.

And the Veterans administration announced that after that time it won't back up new mortgage guarantees in cases where a public covenant is discovered. Unwritten covenants are not affected. Nor are agreements and loans prior to Feb. 15.

The broad outline of the new policy was announced early this month by solicitor General Philip B. Perlman. He said the Truman administration would cut off federal financing for any new dwellings where occupancy is restricted on the grounds of race or religion.

But the next day FHA chief Franklin D. Richards issues a "clarifying statement" which said the new rules would not attempt to control "any owner in determining what tenants he still have or to whom he shall sell his property."

Tired Jury Deliberates Charge Of Negro-Flogging

ROME, Ga., Dec. 17 — (AP) — A tired federal jury meets again today to deliberate the fate of 10 white men in the flogging of seven negroes.

The jurors recessed shortly before 10 p.m., last night after nearly 19 hours of unsuccessful effort to reach a verdict.

Waiting anxiously in the corridors were the defendants—Sheriff John W. Lynch, three of his Dade county deputies and six private citizens.

They are charged with conspiracy to have the negroes arrested "without cause" and then turned over to a Ku Klux Klan mob for beating.
