Christmas Party Saved Writer From Plane Crash

Wilford Brown Jr., native of Camas Valley, where he is now visiting his mother and daughter, credits a Christmas party with the fact that he is still alive.

Brown, a writer for the Alka Seltzer Newspaper of the Air, had made plane reservations for a pre-Christmas trip home. But the Newspaper of the Air personnel decided on a Christmas party and Brown cancelled his reservations.

The plane crashed near Vallejo, Dec. 7, killing all on board. KRNR listeners doubtless will be interested in a story Brown tells of that party, as it involves two of their favorite newscasters, Frank Hemingway, a guest at the party, preparing a transcription directed to Glenn Hardy, it purported to be the voice of Winston Churchill, ascribing to Alka Seltzer, the halting of a planned invasion of the British Isles.

The story was that British spies infiltrated German uniform factories and sewed Alka Seltzer

Sue Woodard was presented with a blue ribbon and premium for winning first prize on her cooking at the state fair at Salem, Mr. and Mrs. Craig Hayes and daughter, Marilyn of Roseburg spent Sunday visiting at the home of Mr. and Mrs. Charles Holcomb.

Mr. Ed Blondell was called away on a weeks absence to Agness, Ore. by the sudden death of his brother, Claude Blondell. Mr. and Mrs. Ralph Lomis and son, Ralph spent the weekend in Portland shopping and attending to business.

Spools of holly were exchanged as good wish tokens at the Roman festival of Saturnalia.

Tablets to uniforms in place of buttons. When German raiding parties tried to wade ashore, the Alka Seltzer started to fizz, the raiders lost their trousers, and the invasion failed.

Hemingway's imitation of Churchill and the manner in which the humorous story was presented, proved the entertainment feature of the party, Brown said.

Federal Loans To Develop Alaska

WASHINGTON, (AP)—Congress early next year may be asked to set up an Alaska development administration.

The purpose would be to make loans to private interests for starting new businesses and industries in the territory.

The interior department is drafting a bill to that end. Reginald C. Price, one of the department officials working on it, told a reporter:

"The primary purpose is to overcome the most important single remaining obstacle to the development of Alaska—the lack of venture capital.

"What little money there is available for Alaskan projects is at interest rates too high to serve the purpose. Eight percent is the going rate."

The proposed measure would reorganize the Alaska Development Corporation bill advanced last September by William E. Warne, assistant secretary of the interior. Price, special assistant to Warne, said that bill is dead.

It would have set up an agency to enable the Federal government to establish its own industries and businesses in Alaska at perhaps a cost of \$1,000,000,000 and later, if feasible, sell or lease them to private interests.

Price said the forthcoming proposal involves a much smaller figure.

The loan program would tie in with Alaska project settlement legislation now before the house public lands committee. This bill would authorize the Reconstruction Finance Corp. to spend up to \$7,500,000 in connection with the quick installation of settlement projects in Alaska.

All-World Rule Only Way To Halt War, Savant Says

WASHINGTON—(AP)—Dr. Harold C. Urey, who helped develop the atomic bomb, declares that the only real protection against it is a "universal government" of the world.

He urged the western democracies to take steps in that direction by:

1. Forming a limited political union;
2. Including other democracies to participate; and
3. Ultimately including the rest of the world after "undermining the dictatorship which controls eastern Europe and much of Asia."

"Eventually," Urey told a meeting of the Atlantic Union committee, "there is no satisfactory solution to modern military problems except a universal government."

He suggested that the initial move should be taken by the nations which signed the Atlantic pact. A western political union, he said, would strengthen the democracies and spread "immense dissatisfaction in Soviet-dominated areas." He added:

"Undermining the dictatorship which controls eastern Europe and much of Asia is necessary before we can expect to work with the important peoples now enslaved there."

Urey is one of the directors of the Atlantic Union committee. This private organization is backing a move in Congress to have President Truman call a conference of the seven nations which sponsored the Atlantic pact, for consideration of a federal union.

The resolution was introduced on Capitol Hill by 20 senators and five house members. Committee hearings on it are expected next year.

The atomic scientist, a professor at the University of Chicago, said world government is the best way to avoid war.

"The real problem before us is not the atomic bomb and never has been," he said. "It is modern war in which weapons of all kinds have become so effective that the victors and the vanquished are almost equally destroyed."

Winston Churchill Plans Two-Week Holiday Soon
LONDON, Dec. 19.—(AP)—Winston Churchill sails Dec. 29 for a two-week holiday on the Portuguese island of Madeira.

The conservative party head-quarters said he would start homeward Jan. 16 unless "events in Britain" demand his presence earlier.

Churchill and his advisers seemed to have in mind the possibility that Prime Minister Attlee might call a general election soon after the first of the year. The general expectation is that Attlee will make no election announcement until around Feb. 1 at the earliest. He can and may delay it several months longer.

Churchill, accompanied by his wife, will travel outward aboard the Union Castle liner Durban Castle and homeward on the Pretoria Castle. The trip takes four days. They will be guests of "Time and Life" and the "New York Times," which publish his memoirs.
