Pinball Ouster Voted By Seven Cities in County

MONTESSANO, Dec. 27.—(AP)—Seven of the eight cities in Grays Harbor county voted Thursday to get rid of pinball machines by Jan. 15.

Mayor Paul Lamoreux of the eighth city, Elma, said his community would handle the problem in its own way. The action was taken at a two-day session called by Sheriff Mike Kilgore and attended by representatives of Aberdeen, Hoquiam, Montesano, Cosmopolis, Westport and McClary. The mayor of Oakville approved the program by telephone.

The motion for action was prepared by Prosecutor Stanley J. Krause and said, in part: "It is unfortunate that a portion of our economy is based on the continued operation of pinball machines in our cities and counties. Many small businesses in our cities will be vitally affected by their elimination. This is a problem for the legislature to consider."

"Law enforcement officers must enforce the law as it is now written and interpreted by the supreme court. They have no alternative but to enforce the law relative to pinball machines."

City licenses on the machines expire Dec. 31. No indication was given as to the legal status of the pinballs during the first 25 days of January.

The United States has more than 2,000,000 acres of irrigated pastures.

Hutchins Lists 10 Greatest Of Our Time; Mrs. FDR Fifth

TORONTO, Can., (AP)—Mrs. Franklin D. Roosevelt is three places above her late husband in a list of "the ten greatest of our time" picked by Robert M. Hutchins, University of Chicago chancellor.

Mahatma Gandhi, the assassinated Indian leader, heads the list. Hutchins made his choices for the mid-century review edition of MacLean's Magazine, popular Canadian monthly.

His list, confined to the first 50 years of the 20th century, contains three Americans and one person each from England, Russia, China, India, Germany, Austria and France.

His criterion: "True greatness must rest on the depth of a man's influence, the effect of that influence in changing our thoughts and lives."

The list and some of Hutchins' reasons:

1. Mohandas Gandhi. "The man who most resembles Christ in the last 2,000 years."
2. Albert Einstein. "In an age of poor thinkers, Einstein is the greatest."
3. Sigmund Freud. Hutchins connects Freud's introduction of psychoanalysis with Einstein's celestial achievements

as the two forces which, mentally and physically, have most changed our lives in this half century.

4. Albert Schweitzer. "He speaks the truth and lives the truth." Schweitzer, the chancellor says, excelled as surgeon, theologian, philosopher, author and musician but renounced worldly fame to operate a hospital in Africa.

5. Mrs. Roosevelt. Hutchins sees her as a symbol of hope and encouragement to women all over the world who wins her place through her great human qualities, her sincerity in speech and action.

6. Winston Churchill. "His greatness lies in his amazing personality, his courage, his inspiring oratory, fitting so exactly the desperate needs of a time of crisis in the world's affairs."

7. Vladimir Lenin. The chancellor says Lenin accomplished the incredibly difficult task of turning the theories of Marx into fact in a nation of 200,000,000 violently split and most backward people.

8. Franklin D. Roosevelt. "Within Roosevelt's years, under his guidance, the U. S. rose to be the world's greatest power. The big majority of Americans (and millions overseas) believed in him, in what he stood for, in what he was trying to do." But Hutchins feels Roosevelt to some extent was fulfilling "a personal feeling for power."

9. Sun Yat-sen. "The father of the Chinese republic changed the political shape of the world for all time." He led "400,000,000 people into a new way of life."

10. Henry Ford. "Ford was rather a dull-witted man." But his idea of mass production, "carried into accomplished fact, profoundly changed the lives of the people of this country."

Hutchins would nominate only three of the 10—Gandhi, Lenin and Sun Yat-sen—for a place among the immortals.

"It is likely that history students in 1950 will recognize the tremendous influence wielded by these three," he says. "Between them they caused an upheaval in the lives of the majority of the people of the 20th century."

Wife of Paul Robeson Sounds Off Via Radio

SAN FRANCISCO — (AP) — The wife of Paul Robeson, American Negro singer, was quoted by the Chinese Communist radio as sharply attacking the United States government and lauding the Communists.

The broadcast, heard in San Francisco by the Associated Press, said she made a Peiping radio speech on Dec. 19 during a visit to Red China. Mrs. Robeson was quoted: "Today, our government is controlled by sixty families who use our dollars, our press, our radio, our guns in plans for war. 'Our' other by our economic, social and political systems."

Polish Prison Terms Meted Six For "Spying"

WROCLAW, Poland, Dec. 27. — (AP) — A Polish military court Friday convicted four French nationals, a Pole and a German on spying charges and sentenced them to prison terms ranging from six to 22 years.

The prosecution demanded the maximum penalty—death—for the six, who went on trial a week ago. All had entered pleas of guilt or partial guilt.

Yvonne Bassaler, a French stenographer in France's Wroclaw consulate, was sentenced to 12 years.

Paul Brousskov, a former French consulate messenger, was sentenced to 14 years.

A French foreign office spokesman in Paris on the day the trial began described as ridiculous the Polish spy charges against the four French citizens.

Eddie Anderson Groomed For Holy Cross Position

WORCHESTER, Mass., Dec. 27. — (AP) — Athletic officials at Holy Cross say they know nothing about it but reports continued that football Coach Eddie Anderson would leave Iowa to return to Holy Cross.

Queried at Iowa City, Anderson said "I know nothing about it."

"There's nothing to it—at least, I haven't heard anything about it," commented Athletic Director Eugene Flynn of Holy Cross.

The New York Post said last week Anderson will replace Bill Carmanski as coach at the Massachusetts school. Carmanski was a star pupil under Anderson at Holy Cross.

Portland Mayor Eyes 'Daylight Citizens'

PORTLAND, (AP) — Portland's 30,000 "daylight citizens" again were eyed as a possible source of revenue for the city.

Mayor Dorothy McCullough Lee said she intended to press for a \$25 per head license fee on them. The daylight citizens are those who live outside Portland, but work in the city. Mrs. Lee complained they were getting the daylight benefits of Portland's services, but were not paying their share of expenses.

She estimated a \$25 yearly fee would bring in \$750,000—just about enough to "pull the city out of its financial hole."

Henry Clap imported the first purebred Herefords to the United States in 1817.

DIAL-LOG

From out of the refreshing, clean, unsophisticated 1927 air, Mel Venter has plucked a program format that is proving a dial delight up and down the west coast. There is no small gimmick on the program, no reason for people to write. Yet they do, from every West Coast state. They ask for pictures of Mel and "Poky," a character played by Floyd Bulck. They inquire about "Soney," the songstress, and "Tex," the bull fiddle player. Bill Sweeney produces the show and fills the morning air with a thousand sound effects ranging from the chirping of birds when the weather is clear to fog horns when the weather is over-cast. Mel Venter is 39 and has been in radio since high school days. The show is as informal as the average breakfast table. The gang drinks coffee every morning served by Amy Lawrence, KRNR's music librarian and mother of featured singer Polly Lawrence, a talented 16 year old lass who is as good looking as her voice (7:15 - 7:45 a. m., Tues., Thurs., Sat.)

Announced this morning over the regular "Queen for a Day" broadcast (11:30 - 12 noon, weekdays), was the "Local Queen" title holder from the Roseburg area, She's Mrs. Rita Barous. Her club: Roseburg Chapter of Zonta International. Our congratulations to you, Mrs. Barous!
