### D.A.V. AUXILIARY TO MEET MONDAY

D.A.V. auxiliary will hold an important meeting Monday night, January 9, at seven-forty-five o'clock at the Del Rey cafe at Winchester. All members are urged to be present.

### HOLIDAY DINNER HELD AT DILLARD

Among holiday dinners enjoyed at Dillard was that at the home of Mr. and Mrs. E. E. Thomas. They entertained for the former's cousins, Mr. and Mrs. Muri Arnold of Oakland on Christmas day.

### Youth Without Home Country

HONOLULU—(P)—Nicolai Drujnenko, 19, is a lad without a country.

He has been shuttling back and forth across the Pacific since last September, unable to land anywhere.

Nicolai stowed away aboard the American President Lines' General Gordon four months ago in Communist Shanghai. He was aboard the Gordon again this week, bound for San Francisco.

This is the third time he has crossed the Pacific. As soon as he reaches the Pacific coast, he will be put aboard another APL ship headed back for the Orient.

Immigration officials here detained Nicolai last September when he first arrived on the Gordon. Baffled because no country—including the United States—would have him, they put him on board a ship bound for San Francisco.

Immigration authorities there put him aboard the APL freighter Dartmouth Victory bound for Taku Bar, off Tientsin, China.

Nicolai jumped ship in Yokohama. U.S. Army officials put him aboard the next APL vessel. It happened to be the General Gordon again. This time it was bound for San Francisco.

If the Chinese Communists refuse to accept him when, and if he finally does reach Taku Bar, this sort of thing could go on indefinitely.

### New Location

Dr. George L. Nicholas, Veterinarian, Graduate of University of Pennsylvania, is now located at 804 Garden Valley Road. Treatment of all domestic animals. Emergency hospital for small animals. Phone 116

## Living Costs For This Year Expected About Same As '49

By SAM DAWSON  
NEW YORK—(P)—Just about as much money is going to drain out of dad's pocketbook in 1950 as in the year just past to keep the family living well.

It cost dad perhaps two percent less money at the end of 1949 than it did at the start. Few think he'll get much more of a break than that in 1950; and most think it'll cost him just as much, all told—some things going up, some down a little.

Mother's likely to save a little on the weekly food bills, particularly if she's a smart shopper. Big supplies, and low prices, are likely on some things like pork, poultry and eggs. Others, like coffee, are apt to stay high, and some foods may go higher as crop weather and the seasons dictate.

Little Difference  
She may be able to clothe the family a little cheaper, but very little. She has already had her break there, prices being 7 1/2 percent below the October, 1948, peak. Cotton and synthetic yarns competition with synthetic yarns may hold down some fabric prices. But the price of fine wool for suits isn't expected to drop much, if any. And labor costs will stay high.

Dad can buy or build a house a little cheaper than he could last year. But if he rents, he's likely to pay more rather than less, especially if controls peter out in June.

Makers of furniture and furnishings think their prices have touched bottom and will be a little higher, if anything, in 1950. Coal Costs More  
If you heat with coal, your fuel bills will be higher. If you heat with oil or gas, you just might get a break. The price of crude oil is still near the peak. But growing competition from natural gas, plus the threat of cheap foreign oil imports, makes the whole petroleum price structure a little shaky, from crude oil right on through to fuel oil and gasoline.

Public transportation to and from work costs more in many cities. What are the forces keeping prices up, or tending to push them higher?

Steel has just gone up, about \$4 a ton. It is a basic material in countless gadgets you use, or that others use in supplying you with the necessities of life.

Freight rates have gone up. The price of everything that

moves on rails is affected. Labor Costs Up  
Labor costs continue to rise, and there'll be pressure in 1950 to raise them higher. They could be offset by greater productivity, but that isn't a sure thing yet.

Taxes add to the cost of the essentials you buy. The pressure is to raise taxes, further—at federal, state and local levels.

Finally, there is the force of inflation—the easy money, easy credit terms, full pocketbooks that induce more buying and thus keep prices bolstered.

What are the forces holding prices down, striving to push them lower?  
Crop Surpluses  
Great surpluses of wheat, corn, potatoes and cotton—all hang over the market, even in the face of government price supports. Storage bins bursting with corn entice farmers to grow more pigs, more cattle, more poultry. And in time, you find a few pennies shaved off your meat, egg and milk bills.

The growing pressure of competition leads producers, merchants and dealers to cut prices, offer bargains to move backed-up stocks.

Most commodities, but not all, have passed beyond the war shortage stage. Still more of the

### TRUSSSED AND ROBBED

PORTLAND, Jan. 6—(P)—Charles F. Gregory was tied up and robbed in his small grocery store here Wednesday night.

He told police two men came into the store, tied his hands and ankles, then emptied the till of \$32 and fled.

tardy ones are likely to become plentiful in 1950, bringing down the cost of living piecemeal, as these savings work through the production and distribution pipelines.

## Window Shopping with Corinne

Today is someone's birthday, remember? And if it's someone dear to you, they'll be most pleased to receive one of ASHCRAFT'S birthstone rings from you. January's birthstone is the garnet, you know, with the amethyst for February and the Aquamarine for March. Some young ladies prefer a birthstone for an engagement ring, and Ashcraft's has a deep red garnet with side diamonds mounted ideally for such a purpose. High school daughters will be pleased with others. In children's rings, there are simply designed squarish mountings suitable for boys or girls of 4 to 10 years. Richly colored stones in a flower-like mounting of 10K gold are lovely for little girls. Remember someone's birthday this month with a birthstone ring from Ashcraft's.

Here's another must for 1950 birthdays: an individually designed cake from CLEO'S QUALITY BAKERY. Phone 981-J, and get Cleo to help you decide on the size. She bakes cakes in all sizes, within a wide price range, for birthdays, anniversaries, or any special occasion. Are you suffering from that "winter feeling" that Bliss Carman describes as "cold-sour through and through"? Then one of Cleo's gaily decorated cakes is just what you need—after all, it's not a bit too early for daffodils and spring violets on a cake!

### "Baby, it's cold outside!"

But it's warm and pleasant at the ICE CREAMERY, where you can get a good hot lunch from eleven till three every day of the week. They serve good hot chili, spaghetti, or baked beans at any time, and creamed tuna or chipped beef at lunch time. Are you one of us folks who can't drink coffee at night? Then stop at the Ice Creamery after the show for a hot chocolate with marshmallow, or a malted milk. Here's another FREE LUNCH, and for a gentleman this time, named Bill Wishart. Clip this coupon out of Window Shopping, Bill, and present it to Mr. McDonald any day next week. You'll have your pick of the good things at the Ice Creamery, and absolutely free.

Life is a long lesson in humility.

Those wonderful skirts and blouses designed by Pettit especially for the junior figure are in again at LUVERNE'S. Blouses are of washable rayon Wonderfallie, a fine tissue faille, in aqua, rose, and white. They are a moderately dressy, beautifully tailored design, with button fronts and three-quarter sleeves. Pocket details are highly original. Skirts are of cotton corduroy, checked rayon, or wool flannel. The corduroy skirts in flame or yellow hang in a wide, wide flare from cummerbund waistlines. The rayon checks are a straightly tailored style, with stitched fly front. The wool flannels have unpressed front pleats and clever leather trim in a mock belt with brass buckle on the waistband. See them now, at Luverne's, 124 N. Jackson.

Here's something at CLARK'S STUDIO that juniors will go for—Anso Junior press cameras for budding journalists. The kit includes press cards, film, batteries, badge, an assignment book, and (of course) camera and flash bulbs. The price for all this is very reasonable, and any young cameraman of junior high age or older will find it easy to get good, fast pictures—that is, if the grown folks don't use it all the time. Junior might make Life magazine with one of his news shots; you never can tell. And the high school annual will use any number of them, too. Drop in at Clark's, 105 S. Jackson, and look at these junior press photographers' kits.

The first duty of schools and state to the child is to preserve his joy of life.

Would you like a console radio with built-in record player? Don't say you haven't room for it until you see the RCA Victor console at MILLER'S RADIO RECORD SHOP. It's a little wonder. Built of makagony in graceful Colonial styling, it is only 18" wide and 14" deep. It contains a 5-tube radio and a 45-rpm automatic record changer that takes up to 10 records. Are you still doubtful of the 45? Don't be. Victor, Capitol, and Tempo wouldn't be pressing on these small plastic records if they weren't practical. London and Mercury will be pressing on them in the near future. Records are unbreakable, cost less, give excellent reproductions, and require smaller storage space. You can now get all the popular bands, all the best classical and semi-classical selections, and albums of children's stories and songs recorded on these plastics. See the console in the downstairs store at Miller's, and get better acquainted with 45's. You, too, will be convinced that this is the best opportunity you'll ever have to get console quality at table model price.

LESTER'S GIFT SHOP has a few Chinese Modern ceramics left. There are covered bandy dishes that look like miniature Chinese houses, and table and mantel bowls for gay flower arrangements using either real or artificial flowers. Use them for cut flowers or as planters for house plants. Another new item at Lester's is the Kelon liquid plastic kit. Anyone in the family might enjoy making plastic jewelry, paper weights, or embedding monograms, photographs, coins, badges, or biological specimens in plastic. Real or artificial flowers may be embedded in this plastic, which hardens around any article you wish to mold. Just follow simple instructions. Get one for a shut-in—he'll spend enjoyable and profitable hours, and it will cost you only \$2.29 for the junior size and \$3.95 for the large size.

When you see these  
And by "these . . ." we mean all the home decoration items included in the pre-inventory sale at JOSSE'S Decorating Department. There are pictures, pillows, lamp shades, luncheon cloths, cotton dot panel curtains, and cotton scatter rugs. There are also bedspreads—cotton plaids, hobnails, pinchecks, and sets with matching skirts for the dressing table and draperies for the windows, made of rayon acetate. Hurry in to get your home decorating needs before this sale ends. A good teacher has to be a combination of scientist and humanitarian.
