Canned Milk Puts Tone In Pudding

By GAYNOR MADDOX NEA Staff Writer

For cold weather appetites the best answer is hot steamed puddings with a rich sweet sauce. Use evaporated milk, one of the plentiful dairy foods, to add particular smoothness and richness to these puddings. Also use one or more of the fruits now in plentiful supply: apples, cranberries, oranges, dried prunes and raisins, as well as nuts, honey or molasses.

Evaporated milk contains all of the nutrients found in whole milk in double their original amounts. And, since it doesn't require refrigeration, it can be stored on the pantry shelf until needed.

For steamed puddings, use a well buttered covered pudding mold. Be sure to butter cover, too. Use a steamer, pressure cooker, or a deep covered kettle. In using the latter, place the filled and covered mold on a rack in the kettle.

Pour in boiling water to one-half depth of mold. If pressure cooker is used, follow manufacturer's directions. Cover and steam the indicated time. Replenish water if necessary with more boiling water or keep it up to the original level.

Mocha-Walnut Pudding
(Serves 8)
Three tablespoons butter, 2/3 cup sugar, 1 egg, well beaten, 2 cups all-purpose flour, sifted, 3 teaspoons double acting baking powder, 1/4 teaspoon salt, 1/2 cup evaporated milk, 1 tablespoon soluble coffee dissolved in 1/2 cup water, or 1/2 cup strong coffee, 2 squares unsweetened chocolate, melted, 1 teaspoon vanilla extract, 1/2 cup walnuts.

Cream butter and sugar together. Stir in beaten egg. Sift flour, baking powder and salt together. Add to butter mixture alternately with milk and liquid coffee. Stir in melted chocolate and vanilla and walnuts. Fill a 2-quart buttered pudding mold, or individual custard cups, 2/3 full.

Steam large pudding for 1 hour, individual puddings for 30 minutes, or until done. Serve with ambrosia sauce, with sweetened and flavored whipped cream, or with ice cream.
