

Schedule Of Service In Cities Of Douglas County Given By Operators Of X-ray Survey

Final plans for the chest X-ray survey of Douglas county have been announced by the heads of the cooperating agencies making the survey possible. They include Dr. E. J. Wainwright, county health department, Dr. C. G. Carlyle Thompson, Oregon State Board of Health; Mrs. Lorraine Riedman, chest X-ray survey director of the Oregon Tuberculosis and Health association, and Mrs. W. F. Amiot, executive secretary of the Douglas County Tuberculosis and Health association.

This survey will be the first in a series of an intensive three-year campaign, designed to cover the entire county thoroughly and to obtain X-rays of 80 percent of the adult population. It will follow a new line of procedure, taking area population as a basis and remaining in that area long enough so that everyone residing there will have the opportunity of having a chest X-ray.

Prior to this time, an effort was made to cover the entire county on a limited time schedule, but several areas have indicated this new concentrated method will give a wider and better coverage of the adult population.

Schedule Listed

Points chosen for this concentrated survey are Drain, Yoncalla, Oakland, Sutherlin, Days Creek, Tiller, Canyonville and Riddle.

The unit will spend two days in Roseburg on this survey and will return here later in the season for a two or three weeks' stay. Myrtle Creek, Glendale and Reedsport will also have a concentrated survey in the future with the unit remaining in those areas on the same population basis.

To offer the best possible service, two units will be in operation in the county at the same time on the following schedule: State mobile unit at Drain Monday, Feb. 27 through Wednesday Mar. 1; at Oakland Thursday, Mar. 2, Friday, Mar. 3 and Monday, Mar. 6; at Canyonville, Tuesday, Mar. 7; at Days Creek, Wednesday and Thursday, Mar. 8 and 9.

The Oregon Tuberculosis and Health association unit dates will be: at Roseburg Monday and Tuesday, Feb. 27 and 28; at Yoncalla, Wednesday, Mar. 1; at Sutherlin, Thursday, Friday, Monday, and Tuesday, Mar. 2, 3, 6 and 7; at Riddle, Wednesday and Thursday, Mar. 8 and 9.

The county health department is also conducting tuberculin testing clinics for the school children in many of the areas where the unit will be in operation, so that well-rounded tuberculosis controlled program will result through both the tests and the X-ray service.

Mass Meeting at Drain Dated

A mass meeting will be held at Drain Tuesday, Feb. 14, at 8 p.m. to start off the campaign. Following this, there will be a meeting of the district chairmen at Roseburg on Wednesday, Feb. 15, at 1 p.m. in room 205, Pacific building, C. R. Bradford, Portland, will then visit each area to be surveyed and plan a house-to-house canvass with the volunteer workers, furnished

with kits and give consultation service.

The location of the unit in each area and hours of operation will be announced following the meeting.

Heads of the combined agencies expressed the hope that the residents of Douglas county will cooperate in full and help them reach the goal of surveying 80 percent of the adult population.

Deranged Veteran Explodes Bullets By Frying Them

PATERSON, N. J., Feb. 9.—(P)—Police used tear gas yesterday to capture a deranged veteran who had barricaded himself in his apartment and shot off bullets by frying them in a skillet.

The man, identified by police as David Higham, needed 50 stitches to close the cuts on his arms. He was treated at a hospital and then removed to the county institution at Hopedell for observation. The cuts were not serious, doctors said.

Police captured Higham by climbing a fire escape across an inner court from his apartment and tossing tear gas bombs through his window.

But when the police searched the apartment, the only weapon they found was an old bayonet. There was no gun, despite Higham's threats to shoot if anyone entered.

He told police he had shot off bullets by putting them in a frying pan on the stove and heating them up.

Police arrived to hear the fried bullets going off. They thought Higham had a gun.

Italy Labor Federation Forms Anti-Red Front

NAPLES, Italy, Feb. 10.—(P)—The Italian federation of labor (FIL) has voted overwhelmingly to join with the Free Confederation of Labor (CGIL) in forming an anti-Communist, independent labor front.

The action, at the end of a national FIL Congress, paves the way for official union action on the merger which has been in the discussion state for many months.

FIL's membership is estimated at from 400,000 to 500,000. CGIL has over a million members and the combined strength is believed to be about 1,700,000.

On the other hand, the Communist-led CGIL claims 5,117,000 card holders although the figure is disputed by Anti-Communist sectors.

Oil is produced in 26 U.S. states. The United States produces about five million barrels of petroleum a day.

NEW HUDSON CUSTOM COMMODORE SEDAN

Shown is the new 1950 Hudson Custom Commodore Series sedan. Hudson last week announced price reductions ranging from \$87.50 to \$166.50 on all models in its Super and Custom Commodore Series. Although these cars are only five feet high, they provide full road clearance and more head room than

any mass-produced car, due to the exclusive "step-down" design with recessed floor. Both lines have a wheelbase of 124 inches and are available with a choice of the 123-horsepower, high-compression Super-Six or 128-horsepower Super-Eight engine.

Anti-Gambling Crusade Creates "Gold Coast" Woe

BILOXI, Miss., Feb. 9.—(P)—Many citizens with an eye on tourists' dollars and servicemen's spending don't like it, but there's a vigorous effort being made to clean out gambling along a lush 250-mile strip of the Gulf coast.

The stretch of seashore involved in between Biloxi, Miss., and Panama City, Fla., includes the Alabama coast. It's studded with swanky resort hotels and high-payroll military bases.

Ministerial groups and law enforcement officers have made their sting felt in a string of unrelated but concerted drives. And the slot machines, dice tables, and two-card monte games are taking to cover.

Those residents who earn their living off the spending of tourists,

soldiers, airmen and sailors aren't at all happy.

This sort of thing, they say, will ruin the section's economy by sending the tourists away; and the soldiers will begin spending their pay-day weekends elsewhere, say in nearby New Orleans.

At a mass meeting of businessmen in Biloxi, one citizen said: "If we don't have slot machines, they'll be referring to this section as the 'Ghost coast' instead of the 'Gold coast.'"

Leading military establishments in the area are Keesler field at Biloxi, the Naval air station at Pensacola, Fla., and Eglin air force base, Fla. Between them they have payrolls aggregating more than \$75,000,000 annually. Ministerial groups contend slot machines get a good part of that.

The drive against open gambling began more than a year ago at Pensacola and Panama City. At most 100 gambling indictments

were returned by a grand jury and heavy fines were levied.

Fifty-four slot machines were seized late last summer in resort areas east of Mobile, Ala.

The drives this year extended to Biloxi and Fort Walton, Fla.

Ventriloquism is an art known to antiquity and is practiced by wandering magicians in many semi-civilized countries.

Limited Praise Given By Morse To GOP Policy

BAKER, Feb. 10.—(P)—Sen. Wayne Morse shifted his re-nomination campaign after limited praise for the Republican party and strong defense of his own voting record in talks here.

At a sale he said millions of independent voters would like to vote for the Republican party "if we would just give them some reason for doing so."

And he found that the party is giving some reason—although not as much as he would like.

The big issue, Morse said, is whether the people are going to support ever and ever expanding authority of the executive branch or whether specific issues are going to be solved by legislation.

The Republican party, he said, is going into the 1950 and 1952 campaigns on a more specific basis than they did in 1948. But he criticized the party's newly adopted statement of principles as not being pinned down sufficiently. As he did in earlier remarks at Salt Lake City and in a luncheon talk at Ontario, he said "I think we lost a great opportunity in not making clear that the Republican party will support the major provisions of the Hoover report. (The Hoover commission report called for re-organization of the executive branch of government to effect economies.)"

At Ontario he said the government could save \$2,000,000,000 by adopting the Hoover report. Another \$5,000,000,000 could be saved he said, by a 20 per cent cut in foreign aid costs, military budget reductions, and tax revisions to encourage business.

Speaking of his own stand on issues, he said at Vale he was going to fight for sound revision of labor laws (he has opposed the Taft-Hartley law and also has opposed its repeal, advocating revision instead); would have nothing to do with socialized medicine; and said he would not "go along" with the proposed Columbia Valley administration.

Prophecies On War

The people must beware of a sense of false security he warned. Both at Vale and at Ontario he declared that solving the peace is the world's big problem.

"Our generation will see whether the sun rises on permanent peace

or on a third world war," he said, adding that America could win the war militarily but would lose it economically.

There must be a bi-partisan foreign policy, the senator said, for injection of partisan politics would split the country, which he said is what Communists want. Only a united front, he told his Ontario audience, could hold Communism in check in Europe and Asia.

Birds relish holly berries in winter.

Deranged Veteran Explodes Bullets By Frying Them

PATERSON, N. J., Feb. 9.—(P)—Police used tear gas yesterday to capture a deranged veteran who had barricaded himself in his apartment and shot off bullets by frying them in a skillet.

The man, identified by police as David Higham, needed 50 stitches to close the cuts on his arms. He was treated at a hospital and then removed to the county institution at Hopedell for observation. The cuts were not serious, doctors said.

Personal Property Tax Reminder for 1950

Personal Property declaration forms were sent out Jan. 1, 1950, with a request for their return before March 2, 1950. Please give this your immediate attention.

Section 110-349, OCLA 1941 reads as follows . . . "The assessor shall cause blank forms for such returns to be prepared and distributed, but failure to receive or secure the form shall not relieve any such person, managing agent or officer from the obligation of making any return herein required . . . All returns filed under the provision of the section shall be confidential records of the Assessor's Office."

Section 110-608, OCLA 1941. "Any such person, managing agent or officer who shall with intent to evade taxation, refuse or neglect to make any return herein required and to file it with the assessor within the time specified or as extended shall be subject to a penalty of Ten Dollars \$10.00 per day of the continuance of such refusal or neglect . . ."

Household furniture, domestic fixtures, household goods and effects actually in use as such in homes and dwellings, where not used for business or commercial purposes, are exempt from taxation and should not be reported on this form. Exemption also applies to wearing apparel, watches, jewelry, and similar personal effects actually in use.

These forms may be obtained by calling at the Assessor's office, or will be mailed upon request.

Douglas County Assessor

With "The New Step-Down Ride"

Here are 1950's most beautiful automobiles • The only cars with "step-down" design, which provides America's lowest center of gravity and the steadiest road-hugging ride ever known • Along with more room than in any other car • Here's the added safety of Hudson's exclusive Monobilt body-and-frame • The high-compression performance of America's most powerful Six • Or an even more powerful Eight • And all-range, Super-matic Drive! • Here, in short, are unique features that enable Hudson alone to bring you "The New Step-Down Ride!"

TODAY'S THE DAY!
The day to see the gorgeous Hudsons for 1950 that bring you a fresh motoring experience—"The New Step-Down Ride"—at sensational lower prices on every Super and Custom Commodore model.

This is the ride that cradles you in the lowest-built car of them all!

You instantly see that these New Hudsons have the lowest center of gravity in any American automobile—and as a result, you know instinctively, as you view them, that they hug the road more tenaciously and are therefore America's best-riding, safest cars!

You quickly see, too, that these low-built Hudsons for 1950 have full road clearance and more head room than in any mass-produced car built today—thanks to "step-down" design with its recessed floor!

And amazing head room is only one kind of spaciousness you'll find in these great cars! Through "step-

down" design and ingenious use of space that is wasted in other makes, these new, streamlined Hudsons of normal exterior width bring you seat cushions that are up to 12 inches wider than those in cars of greater outside dimensions.

In fact, when you try "The New Step-Down Ride", you'll find the New Hudson has more inside room than any other car, at any price!

You'll thrill to the get-up-and-go performance of your choice of two of the greatest engines in a long line of great Hudson engines—the high-compression Super-Six, America's most powerful Six, or the even more powerful high-compression Super-Eight!

But these are only a few of the great features of "The New Step-Down Ride" that mean more value at less cost. There are more, so many more that the only way to really appreciate all that the New Hudsons for 1950 have for you is to come in, try them yourself. May we expect you soon?

NOW . . . 3 GREAT HUDSON SERIES

Lower-Priced Pacemaker Famous Super Custom Commodore

ONLY CARS WITH "STEP-DOWN" DESIGN

NOW ON DISPLAY

Hudson's exclusive SUPER-MATIC DRIVE! Hudson brings you no-shift driving with Super-matic Drive, which includes the fuel economy of over-drive—the only transmission that shifts gears for you just as you want, doesn't creep on starts or after stops, doesn't slip as you roll along—and that can be converted to conventional drive at the touch of a button.

*Optional at extra cost.
