## In the Day's News

(Continued from Page One)

of New Jersey. Addressing the 64th annual Lincoln day dinner of the National Republican club in New York, he said:

"The Republican party can offer STABILITY as well as security... this can be done by taking full care of those who want and need government programs and yet avoiding bigness in government... Americans are now reaping the harvest of careless war and post-war promises, of trifling with communism, of fumbling with containment and of SQUANDERING OUR ASSETS."

He then added:  
"A vital, liberal, progressive Republican party can promise the nation something better than government by expediency."

FIND that easy to agree with. Personally, I think the Republican party should say to the people:

"Our first job as good Americans is to KEEP OUR NATION SOLVENT. We must balance our books. We must quit spending more than we are taking in. We must start to pay off our debt. Having started that, we must finish it."  
With that out of the way, the Republicans should then say:  
"As for sound social benefits, we are FOR ALL OF THEM THAT CAN BE PAID FOR."

SENATOR Morse, who is a Republican but can't be accused of being a standpatter, said in Pendleton the other night:

"Our strongest defense weapon against Russia is not the atom or the hydrogen bomb BUT ECONOMY... that is the No. 1 issue facing America. We must start thinking of economic trends AND WE MUST DO SOMETHING ABOUT THIS DEFICIT SPENDING."

AM quoting from the teletype report of Senator Morse's Pendleton talk. Because of newspaper space limitations, it isn't complete. But I imagine this is the message that the senator meant to convey:  
"IF WE BANKRUPT OURSELVES BY CONTINUED RECKLESS SPENDING, WE SHALL BE PLAYING DIRECTLY INTO STALIN'S HANDS."

At any rate, that is the cold and literal truth. If we encourage our politicians to go on spending our nation into bankruptcy, THE TIME WILL COME WHEN WE SHALL LIE HELPLESS AT RUSSIA'S MERCY.
