

Commerce Dept. Official's Loyalty Questioned

WASHINGTON, Feb. 18.—(AP)—Senator Malone (R.-Nev.) told the Senate he is informed that a high commerce department official is a Manchurian-born Russian who was turned down for citizenship three times.

He proposed that the Senate interstate commerce committee inquire into the "loyalty" of Michael J. Lee, chief of the Far Eastern division of the commerce department's office of international trade.

Malone told the Senate that Lee's real name is Ephraim Zinovi Liberman.

He said he "is the man whom the Chinese blame more than any other individual for deliberately delaying vital shipments of aviation gasoline and other supplies to Nationalist China until the Red hordes took over."

Child Labor Law Strengthened By New Provisions

ROSEBURG, Feb. 22.—The child labor provisions of the fair labor standards act (federal wage and hour law) were strengthened and several big loopholes were plugged by amendments to the act recently passed by Congress, it was pointed out here by a representative of the wage and hour and public contracts divisions, U. S. Department of Labor, during a special broadcast by station KRNR.

Madison R. Smith, investigation supervisor for the divisions in the state of Oregon, said the amendments directly prohibit the employment of oppressive child labor in industries engaged in interstate commerce. Previously, he pointed out, the ban applied only to firms shipping goods in interstate commerce.

"The amendment closes a big loophole," he said, "under which firms could escape liabilities by withholding goods from shipment in interstate commerce for 30 days after they had stopped using oppressive child labor."

Farm Angle Explained
"Another important change concerns employment of children to work in agriculture. The original act said children under 16 years old could not be employed when not legally required to attend school. The amendment says they can be employed on farms only outside of school hours for the school district where they are living while employed."

"The amendment also permits children to be employed on farms during school vacations and on holidays, and after-school hours. It does not interfere with the right of a parent to employ his own child on the home farm. The new provision applies only to employment on farms covered by the act."

"Newspaper carriers are exempted for the first time from the child labor, minimum wage and overtime provisions if they deliver papers to consumers."

Head hunting is said to have continued in the Balkan peninsula up to 1912.
