Vaslav Nijinsky, Famous Dancer, Taken By Death

LONDON, April 8.—(AP)—Vaslav Nijinsky, 60, one of the world's greatest dancers, died in a London clinic today. He had been insane for 31 years.
He was admitted to the clinic Thursday suffering from nephritis, an inflammation of the kidneys. A member of the family said that was the cause of death.
Nijinsky, a native of Russia, had come to England in his long search for mental health. His mind snapped in 1919, when he was at the height of his career. Many critics unhesitatingly called him the greatest dancer who ever lived.
His devoted wife, Romola, had nursed him throughout his long years of mental darkness.
Nijinsky was born in Kiev on Feb. 28, 1890, while his mother was on a dancing tour. His birth certificate was filed in Warsaw, Poland, however, to save him from Russian military service.
While in school, Nijinsky early demonstrated his athletic skill and a dominant aesthetic sense. He was nicknamed "Kitajec" (Chinaman) because of his oriental appearance.
After his graduation from the Imperial school of dancing he joined the Imperial Russian ballet, where under the tutelage of Sergei Diaghilev, he quickly became its brightest star. He stor ed Paris in a ballet organized by Diaghilev.
Nijinsky married Romola Pulsky, the daughter of a famous Hungarian actress, in Buenos Aires in 1912.
At the start of the first world war he was arrested in Budapest, Hungary, as a spy when detectives found in his rooms a series of drawings they thought was code but which he proved were the mechanics of his new dances.
In 1919 he was pronounced insane and confined to a sanitarium in Switzerland. His mental condition was diagnosed as schizophrenia, split personality.
The first known performance after his mind failed him was at Sopron, Austria, 50 miles from Vienna, in 1945, after Russian troops released him from Hungarian internment. He broke his long silence, laughed, danced and capered like a youth before a Red army camp fire. His wife said the Russian soldiers got him drunk, "which was naughty of them."
While in England following the war, Nijinsky appeared to improve and danced occasionally for his wife while he heard music. He loved for a time she hoped he would be able to make a comeback. But he never did.

Glider Pilot Training Of Red Youth Violates Law

BERLIN.—(AP)—Soviet-occupied Germany has openly embarked on a program of training thousands of young Communists as glider pilots, despite a four-power ban.
The Soviet-licensed newspaper Neue Zeit said the state of Saxony-Anhalt has already begun "extensive measures to promote this beautiful sport." Many German air force pilots of World War II got their initial training as glider pilots in the days of official German disarmament.
Before the cold war Russia joined with United States, Britain and France in a decree outlawing German gliding as a military security hazard.

Wisconsin Students Find Law Conflicts

MADISON, Wis., April 8.—(AP)—A conflict in law today confronted a group of Wisconsin students seeking to petition for the recall of Senator McCarthy (R-Wis.).
A university student says it can be done under Wisconsin law. But a Washington expert says there is no way the state can do it. State officials declined to comment "until the occasion arises."
Lloyd Barbee, of Memphis, Tenn., president of the University chapter of students for Democratic Action, yesterday said the Wisconsin law has the machinery for McCarthy's removal through a recall petition and special election.
Walter Watkins, the senate parliamentarian, said only the upper house itself can expel a member.
Official To Oppose Hickenlooper In Race
KEY WEST, Fla.—(AP)—Albert J. Loveland has resigned as undersecretary of agriculture to enter the race for the U.S. Senate in Iowa.
Accepting President Truman said he did so with "real regret" and praised Loveland for "distinguished service in behalf of the American farmer both in Washington and in your own state."
Loveland is a candidate for the Democratic nomination for the seat held by Senator Hickenlooper (R-Iowa), a member of the Senate foreign relations subcommittee investigating charges by Senator McCarthy (R-Wis.) that the state department is overrun with Communists.
Hickenlooper is one of the Republicans against whom the President may campaign during coast-to-coast stumping tours this year.

GI Gets Surprise

NASHVILLE, Tenn., April 8.—(AP)—A former GI who had been expecting an army insurance check got the surprise of his life when he opened a letter from the government.
The letter said: "You owe the United States \$5,680."
Arthur Washington, a hotel porter, read on.
Seems the Army had been paying Washington's estranged wife \$80 a month family allowance from the day of his discharge in October, 1943, to Sept. 30, 1949.
The letter from the Army finance center at St. Louis added that the situation had "created an indebtedness of \$5,680."
Washington, who said he and his wife had separated six years ago, took the letter in stride.
"I haven't got 80 cents," he said.

Snow Falls Again At Klamath Falls

By The Associated Press
Snow fell again today in Klamath Falls.
It was more than an inch deep at dawn and still falling as that city had the unusual reminder of winter in April for the third straight day.
It was an unpleasant prelude to Easter and the weather bureau said tomorrow's skies would not be favorable for a parade of finery.
Some improvement over today was seen, however, in gradual lessening of the strength of a cold low pressure area off the south-west coast. A mass of cold air lying at 5,900 to 20,000 feet, which accounted for Klamath Falls' snow, was expected to start dissipating.
But through the state generally clouds are expected tomorrow.
Portland will get no rain, the forecaster said, and will get occasional glimpses of the sun. But the picture for tomorrow, the weather bureau said, is cloudy and occasional showers in eastern Oregon; cloudy and more frequent showers in southern Oregon.

Peach, Vegetable Crops In South Heavily Damaged

By The Associated Press
A cold snap took a multi-million dollar bite of southern vegetable and peach crops Friday.
Most of the damage was to the peach crops of Georgia and South Carolina. Peach crop damage in the Spartanburg, S.C., area alone was placed at \$5,000,000 to \$7,000,000 by Troy Cribb, manager of the South Carolina Peach Growers association; E. H. Rawl, American Fruit Growers horticulturist, and Ben E. Gramling of the Gramling Marketing company.
Rawl said it was "one of the worst disasters ever to strike at agriculture in this section."
The cold snap tumbled thermometer readings to below freezing as far south as Columbus, Ga. A low of 23 was reported at Ocala in North Florida, and more cold was forecast for today. Freezing was predicted as far south as Orlando.
Strawberries, watermelons and canteloupes were damaged in South Alabama.
Miami's 44 degrees was an all-time low in April for that city. Key West had the same experience with 55 degrees. An all-time low of 38 was recorded at Mobile, and a sub-freezing 27 was a new record for Birmingham.

Italian Reaffirms Right To Trieste

MILAN, Italy, April 8.—(AP)—Italian Foreign Minister Count Carlo Sforza warned the western powers today Italy would not give up her claim to Trieste.
In a speech reflecting widespread Italian fears of an allied outface on the free territory, Sforza renewed his country's offers to settle all differences with Yugoslavia—which controls part of the Trieste territory—by direct negotiation.
But he emphasized the starting point for any accord must be the return of Trieste to Italy.
Trieste was established as a free territory by the Italian peace treaty. The United States, Britain and France proposed giving the territory back to Italy two years ago, on the eve of the Communist-ruled Italian general election. Russia turned the proposal down.
Since then Yugoslavia has broken from the Soviet orbit and there has been growing concern in Italy lest the western powers back down on their proposal in a gesture toward Premier Marshal Tito.
Sforza said the Italian government was growing more determined to insist that the western powers back down on their proposal in a gesture toward Premier Marshal Tito.

Child Killed Playing With Loaded Automatic

BALTIMORE, April 8.—(AP)—One of four young children, left alone last night with a 10-year-old baby sitter, playfully pressed a 45 automatic against his chest and shot himself in the heart.
The child, 6-year-old Vito DeLeonardo, was pronounced dead at Johns Hopkins hospital.
Police said Angel Torres, 21, had been left in charge of the four youngsters by their mother, who worked as a waitress. Torres, in turn, had paid 10-year-old Fayetta Morgart 30 cents to stay with the children, police said.
Fayette told police she gathered the children, ranging in age from 3 to 11 years, in one big room. She said she and Vito then began to play with Torres' automatic which he had left on a bed.

Airline (American) officials say it will be the first time a complete symphony group with all its instruments and baggage has flown in one plane.
The orchestra, a musical pride of Detroit, is an all-amateur group under Conductor Edward Werner, veteran of the theater stage. It will perform in 28 concerts on the tour.

BRUSSELS, Belgium, April 8.—(AP)—Premier-designate Paul Van Zeeland said today he had failed to form a government to bring King Leopold III back to his throne. He hopes to complete a cabinet by Tuesday.
"Slight last minute difficulties," said the Social Christian supporter of the exiled monarch, prevented his finishing the cabinet lineup he had expected to present for Regent Prince Charles' approval at noon today.
Van Zeeland said the regent had given him until noon Tuesday to complete his government.

State Police Investigate Source Of Bullet Wound

State police today were still investigating the source of a shot which injured Delbert Christian, about 13, of Coquille late Friday afternoon.
Sgt. Holly Holcomb said a group of boys were along the river near Myrtle Creek shooting at some bottles. The shot that injured young Christian, however, was believed to have come from across the river, and is believed to have been a glancing bullet from off the water.
The boy, struck in the leg, received treatment from a Myrtle Creek physician, who notified the police.
Engine trouble at Calcutta Monday forced them to give up the idea of beating the late Bill Odum's around-the-world record.
So, as the Bixby put it, "we're in no hurry now. We're going to stay and see the town."
Bixby disclosed they flew over Communist China without official clearance. They crossed at night and the trip was uneventful.
He said that whether he and his wife make a second assault on the record will depend "on how the airplane is."
After taking a good look at Tokyo they will leave early Monday for San Francisco by way of Midway.

Official Kills Self

BEVERLY, Mass., April 8.—(AP)—Samuel Vaughan, 63, prominent Boston lawyer, railroad director and bank official, killed himself by discharging a small brass ship's cannon into his mouth Thursday night.

A woman bank employee and an auditor previously ended their lives.
Associates said Vaughan had been despondent over falling health.
Vaughan was president of the Beverly school for the deaf, one of the victimized organizations. He presented charges against Porter.

Trouble Downs Flying Bixbys

TOKYO, April 8.—(AP)—Engine trouble broke up the flying Bixbys' attempt to beat a world-circling speed record and broke trouble landed them in the mud on their way home today.
Bob and Diana Bixby buzzed in from Calcutta in their speedy twin-engine Mosquito, a model which was one of the fastest bombers in the late war. They had averaged about 330 miles an hour en route.
Then, as the wife prepared to put the plane down at Tokyo's Haneda airport, she and her husband heard a bang. They thought the hydraulic line to the brakes had snapped.
Later they found that a valve in the air brakes had frozen in the high altitudes and had not thawed when they came in. The brakes were as good as ever a few hours later.
In any case, they came in as slowly as possible. The plane rolled the length of the runway and wound up in mud half a foot deep. There was no damage.
Engine trouble at Calcutta Monday forced them to give up the idea of beating the late Bill Odum's around-the-world record.
So, as the Bixby put it, "we're in no hurry now. We're going to stay and see the town."
Bixby disclosed they flew over Communist China without official clearance. They crossed at night and the trip was uneventful.

Conscience Causes Boys To Return Coed's Purse

CORVALLIS, April 8.—(AP)—Two conscience-stricken Corvallis high school boys returned money here Friday which will enable an Oregon State college coed to finish out the spring term of school.
The two teen-agers told juvenile authorities they picked up the purse of Helen Nickum, Portland, in the women's building on the campus. It contained \$90.
The consciences began to bother when they read in a local newspaper that the loss of the money might force the girl to leave school.

9-Year-Old Inherits \$9 Million Estate

MARTINEZ, Calif., April 8.—(AP)—Nine-year-old William Thornton White III, a blue-eyed boy who likes baseball, has been named sole heir to a \$9,000,000 estate.
The huge windfall was revealed yesterday in a petition for probate of the will of Mrs. Katherine Brown Irvine, 62, the boy's grandmother, who died last Sunday. It probably will be whittled down to about \$4,000,000 by state and federal inheritance taxes.
