For traveling the bride selected a navy blue wool and white tailored ensemble with pink hat and accessories. Following their return from an extended trip to San Francisco they will make their home during the summer months at Gold Beach where Mr. Krogel is a guide. In the fall they will return to their home on Keasay road.

THE CLOVEN WOMEN'S EX-CHANGE

"I Can't Tell One Diamond From Another"

This young man is so right! At one store he is offered, let us say, a half carat "perfect blue-white" diamond for 350 dollars and at another store a "flawless, white" diamond the same size is priced \$600.00. He is confronted with confusing and conflicting terms.

The descriptions "blue-white and perfect" are meaningless because they are grossly misused terms having a host of meanings. Carat weight is the least reliable gauge of value. Color and cutting of a diamond are actually the most important factors affecting the price.

How, then, can he be certain that he is getting competent counsel in choosing a diamond?

We sincerely advise: Choosing jewelers before choosing gems.

There are many jewelers of integrity who do not belong to the American Gem Society, but we can assuredly recommend our own fellow members in this society, for their business ethics and their knowledge of diamonds and other gems is carefully examined yearly.

If you have questions about diamonds, whether you intend to buy or not, come in and talk to us. We offer free a little booklet published by the American Gem Society entitled *Diamonds*. This booklet answers most of the questions that anyone might have about diamonds and how to buy them.
