Citizenship Of Harry Bridges Knotty Problem

SAN FRANCISCO, April 13.—(P)—Harry Bridges keeps his U.S. citizenship another month, at least. Federal Judge George B. Harris says he isn't certain he has authority to cancel the citizenship. On Monday, Harris sentenced Bridges to five years for perjury. A jury last week convicted the Australian-born CIO Longshore leader of having lied—swearing he was not a Communist—when he signed his naturalization papers in 1945. Bridges is free on \$25,000 bond pending an appeal.

Robert McMillan, assistant U.S. attorney, argued yesterday that Bridges' perjury conviction makes cancellation of his citizenship a formality. But he agreed with defense attorney Vincent Hallinan that there is little law on the subject.

Harris said he would study the statutes. Meantime, he directed both sides to file formal briefs. That will take 24 days. Harris will rule some time after that, but indicated he will take plenty of time for study.

WASHINGTON, April 13.—(P)—Harry Bridges might be able to stay in this country indefinitely even if he loses his American naturalization papers as a result of his perjury conviction.

Such a situation could arise because he will become a "stateless person" if his papers are revoked. A "stateless" category raises problems, government officials conceded today, which could lead to complications that might endlessly delay his proposed deportation. For it would then be a question of finding a foreign country which would give him entry papers.

Anchorage Hunts For Possible 'Typhoid Mary'

ANCHORAGE, Alaska, April 13.—(P)—This city's fight on typhoid focussed today on the search for a possible carrier — another "Typhoid Mary."

The hunt began in earnest after the confirmation of eight new cases of typhoid brought the confirmed 000,000 in first mortgage bonds after it meets certain conditions.

The company must submit required data on bids it receives and get commission approval of the coupon rate, the price to be paid and the initial offering price.

The bonds would be issued to pay Pacific's \$9,000,000 promissory note dated Sept. 30, 1949, and held by Mellon National Bank and Trust Co., the company said.

The public utilities commission of Oregon conditionally approved the issue March 30. The bonds would mature in 1980.

total to 12. All are in Spenard, fast-growing suburb south of Anchorage.

Neither Anchorage nor any of its other congested suburban areas has reported any cases.

Dr. Joseph Stickler, epidemiologist at the Alaska department of health at Juneau, has ordered all public gatherings in Spenard canceled.

Stickler and medical staffs of the U.S. Air Force hospital, and Providence hospital also advised residents to boil water before using it, although all water tests made to date have been negative.

Working with Stickler are local health officials, public health nurses, and staffs of both hospitals. As they continued their attempts to trace the origin of the ailment, civilian and military personnel crowded doctors' offices and dispensaries for immunization shots.

Mrs. J. H. Carver, wife of the pastor, and a sponsor of the affair, was unable to make an accurate count of the number attending. The hunt was reported to be "very successful" from the children's point of view. Later in the afternoon they relinquished their "findings" long enough to enjoy rides on the merry-go-round, which has moved from Nielsen's market to the Roy Thompson property.
