In addition, Concordia's facilities are open also to other young men of good character who desire a general education under Christian auspices. The school offers them a course of study which will prepare them for college and university work.

Get Rid Of Home Fire Hazards Now, Says Chief Mills

Spring cleaning has traditionally been mother's department, but William (Dutch) Mills, Roseburg fire chief, says there are a lot of jobs that should fall dad's way during the annual spring clean-up.

Mills says that from the man's point of view, spring clean-up is a good time to get rid of many fire hazards around the house. There are some 400,000 fires in American homes every year. Nine out of 10 fires are caused by carelessness or neglect. So, says Mills, here's what Mr. Householder can do to help rid his home of fire hazards:

Clear out the combustible rubbish in the basement, closets, attic and garage. Throw out paint and oil rags. If rags are needed for further work, keep them in closed metal containers.

Clean and check all heaters for repairs. Have the furnace cleaned. Inspect smoke-pipes for cracks or rust spots. Have repairs made. Make all necessary repairs to the house. If you need a new roof job, be sure to get fire resistant material.

Look over electric cords to see if any have frayed. If electric appliances need repairing, take them to a qualified electrician.

Don't keep any gasoline, benzene or naphtha in the house. If dry cleaning materials must be kept around the home, see that only

Safety Before Chivalry Urged On Auto Drivers

LOS ANGELES, (AP)—Chivalry in an automobile can be fatal, and the ladies shouldn't expect it.

Thus spoke the Automobile club of Southern California in a revised "code of manners" for woman automobile passengers.

"The motorist has a trouble enough just keeping his eyes on the road," said Joseph E. Havenner, public safety manager. "His female companion has no right to take offense when the little considerations normally due her sex are disregarded."

"Isn't a slightly discourteous escort preferable to a gallant corpse?"

safe fluids are used. Clean-up week, says Mills, is just like New Year's; A good time to start good safety habits around the home.
