The first of the new dial telephones have been installed. The center of the valley is being serviced first. There will be three outside telephone booths, one at the Camas Valley store, one at Robert Richter's and one at Weist's store. It is expected the work will be completed in about a month.

## Winston Christian Church Has First Meeting In Home

The Winston Christian church held its first meeting at the home of Mr. and Mrs. Dwight Davidson Sunday, April 23. C. O. Slabaugh presided over and arranged the organization of a Sunday school, and Robert McDonald of Northwest Christian college preached and had charge of the church service. Mrs. Wilmetta Squire led the singing in Sunday school and Mrs. McDonald led the church music.

Mr. and Mrs. McDonald and two divinity students at NCC, Marlin Johnson and Herbert Knapp, arrived in Winston Saturday morning and assisted Slabaugh and Earl Woodruff in calling on the residents of Winston and vicinity. There was a fine response from these contacts in the service Sunday, they said.

After a potluck dinner, a business meeting was conducted by Slabaugh, with Mrs. Davidson acting as secretary. Plans for the erection of a building on the recently purchased lot and for a temporary organization were discussed.

Mr. and Mrs. Davidson, who live one-half block north of Coos highway on Civil Bend cemetery road, opened their home for Sunday services until the building is sufficiently completed for occupancy or until other arrangements can be made.

## Toiler Should Be Better Informed, Stassen Declares

WASHINGTON, May 1.—(AP)—Harold E. Stassen told business leaders today that as far as the world's working people are concerned capitalism "is the most unworkable economic system in all history; and Socialism and Communism are the most overused."

He said the job of reversing that situation rests with American industry. If it succeeds, he added, the result could be an end to the cold war with Russia—and the possibility that a "third hot war" need never be fought.

Stassen said the American workman is "grossly misinformed about the operation of his own economic system," and added:

"It is not surprising. He has been subjected to a steady bombardment of misinformation by left-wingers, by many labor leaders, and by many politicians. He has received precious little of accurate information from businessmen, or from politicians, in understandable form."

Stassen told his businessmen audience that the task of informing American workers is "a job to be done in your town, in your plant, in your own office and among your neighbors—by you."

Loans and discounts also show a marked increase since last June 30, states the report. The latest figure reveals loans and discounts totalling \$147,926,065, an increase of \$15,091,754 since the 1949 mid-year report.
