Corpse Of Murdered Woman Discovered

BERKELEY SPRINGS, W. Va., May 11 — (AP) — Someone throttled a young woman with a rope, then threw her nude body down a 40-foot embankment yesterday.

A man hunting mushrooms near the Potomac river bridge leading into nearby Hancock, Md., discovered the crime when he saw the victim's bright red hair glinting in the sunlight.

State police said the woman may have been thrown from a car moving along a little-traveled road within sight of the Potomac river. Her neck was broken, apparently during the tumble down the embankment.

There were few clues to identify.

Entire Population, 13, Eases Census Taker's Job

SQUAW BROOK, Me. — (AP) — The census taker didn't even have to knock on a door to count Squaw Brook's entire population.

The 13 residents saw him coming—aboard a Canadian Pacific railway track motor car.

Enumerator Roland Russell of Brownville Junction traveled 32 miles with railway men on the "scooter" to reach the two-house wilderness community.

The men here are railroad section hands. Nine of the residents are Larsons—Mr. and Mrs. Larson and their seven children.

Army Finance Unit Accused Of Fund Squandering

By RUTH COWAN

WASHINGTON, May 12. — (AP) — A congressional subcommittee reported Wednesday that the army finance center at St. Louis has overpaid \$157,596,000 in allotments to military dependents.

Most of the payments were described as wartime allotments.

Furthermore, the preliminary report filed with the House civil service committee says that the general accounting office has 130,000 cases of overpayment yet to review. And it estimated that more than 125,000 cases have been lost in the "inactive files."

Reports of Communist infiltration at the center also figure in the case.

Chairman Karst (D-Mo) of the subcommittee, one of five agencies checking into the center, said he has recommended that the up-to-now secret hearing be open to the public.

The report says that these hearings, during which more than 100 witnesses were questioned, turned up evidence of "bad security risks," erroneous expense accounts, shuffled files, army laxity and efforts to discredit FBI investigations.

In fact, one of 14 recommendations by the Karst subcommittee was that:

"The representatives of the international Business Machine Co., who participated in a conspiracy to discredit the federal bureau of investigation and counter intelligence corps investigations, be barred from further official contact with all government agencies."

Arson Indicated At Institution's 4th Fire

PHILADELPHIA, May 11 — (AP) — A fire marshal said he found indications of arson after a blaze which early today damaged the Belle Vista sanatorium — scene of another fire in which 10 patients died March 29.

A coroner's jury ruled that the March fire was started by Nicholas A. Verna, 29-year-old convicted firebug and patient at the private institution. He since has been committed to the Fairview state hospital for the criminal insane.

Edward H. Chew, fire marshal, said today's fire — the fourth at the private institution in 16 months — appeared to have been "set deliberately with gasoline."

Attendants said there were no patients in the damaged building because it had been closed for repairs following the March blaze.
